

Porsche Panamera Rear Brake Pad Replacement Ceramic Brake Pad 971 698 451 E

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T,LC
- Supply Ability: 15 Million

Product Specification

- Product Name: Porsche Panamera Ceramic Brake Pad
- Model: 2017 Panamera
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-05018
- F/R: R
- FMSI: D2046
- OEM: 971 698 451 E
- Braking System: N
- Highlight: 971 698 451 E Rear Brake Pad,
971 698 451 E ceramic brake pad, 971 698 451 E

Product Description

Specifications	
Product name	Porsche Panamera Ceramic Brake Pad
Model	2017 panamera
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-05018
FMSI	D2046
OEM	971 698 451 E
Braking System	N
Size	
Width	187.5mm
Height	86.9mm
Thickness	16.6mm
Model_MARKE	Porsche Panamera

Experience Unmatched Braking Performance with Porsche Panamera Ceramic Brake Pads

Elevate your Porsche Panamera's braking system with our state-of-the-art ceramic brake pads. Engineered to perfection, these pads are designed to fit seamlessly with your vehicle's specifications, including models with part number D2046, 971 698 451 E, R.

Key Benefits:

Optimal Stopping Power: Our ceramic brake pads provide exceptional stopping force, ensuring safety and precision in every stop.

Low Dust Formula: Reduce wheel cleaning time with our low-dust technology that keeps your rims shining.

Quiet Operation: Enjoy a peaceful driving experience with pads that are crafted to reduce noise levels during braking.

Enhanced Longevity: The robust ceramic material extends the life of your brake pads, offering reliability and performance that lasts.

Whether you're navigating tight corners or coming to a quick halt, our ceramic brake pads give your Porsche Panamera the edge it needs for superior braking performance.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35, coupled with heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
