

1 Set Disc Brake Pad Set Best Ceramic Brake Pads Ideal Solution for Heavy Duty Vehicles Requiring Superior Brake Control

Our Product Introduction

Basic Information

- Brand Name: Herito
- Model Number: ZK-38001

Product Specification

- Brake Pad Type: Disc
- Factory No: ZK-01001
- Shims Included: Yes
- Installation Method: Bolt-On
- Package Quantity: 1 Set
- After Service: Yes
- Wear Resistance: High Wear Resistance
- Package Contents: 4 Brake Pads

Product Description

Product Description:

The Disc Brake Pad Set is an essential component designed to provide superior braking performance and safety for your vehicle. Manufactured with precision and high-quality materials, this set includes 4 brake pads that are engineered to deliver reliable stopping power and long-lasting durability. Whether you are replacing worn-out pads or upgrading your braking system, these disc brake pads are an excellent choice to enhance your vehicle's safety and performance.

One of the standout features of this Disc Brake Pad Set is its environmental compliance. The pads are completely lead and asbestos free, ensuring that they meet strict environmental standards and contribute to a cleaner, safer environment. This makes them a responsible choice for drivers who prioritize eco-friendly automotive parts without compromising on quality or effectiveness.

When it comes to performance, these brake pads are designed to offer exceptional friction and heat dissipation, which results in consistent braking performance even under demanding conditions. This characteristic makes them one of the best ceramic brake pads available on the market today. Ceramic brake pads are renowned for their quiet operation, minimal dust generation, and enhanced stopping power, making this set ideal for drivers seeking both comfort and safety.

Durability is another key advantage of the Disc Brake Pad Set. With a guaranteed lifespan of 30,000 to 50,000 kilometers, these pads provide excellent value for money by reducing the frequency of replacements and maintenance. The robust construction ensures that the pads can withstand the stresses of everyday driving as well as more intense braking scenarios, offering peace of mind for drivers who demand reliability and longevity from their brake components.

Produced under the factory number ZK-01001, this Disc Brake Pad Set represents the commitment of its manufacturer to quality and consistency. The factory number serves as a mark of authenticity and traceability, giving customers confidence that they are purchasing a product that meets rigorous quality control standards. This attention to detail and adherence to manufacturing excellence places this set among the best brake pad brands available today.

Choosing the right disc brake pads is crucial for maintaining the safety and efficiency of your vehicle's braking system. The Disc Brake Pad Set not only meets but exceeds industry standards, making it the preferred choice for drivers who want reliable stopping power combined with environmental responsibility. The ceramic composition ensures quieter braking and less wear on the rotors, which helps extend the overall life of your braking system.

Installation of the Disc Brake Pad Set is straightforward, and the package contains all 4 brake pads needed for a complete replacement on most vehicles. This comprehensive package ensures that you have everything required to restore your vehicle's braking capability to optimal levels quickly and efficiently. Whether you are a professional mechanic or a DIY enthusiast, this brake pad set provides excellent performance and ease of use.

In summary, the Disc Brake Pad Set is a top-tier product that combines environmental compliance, advanced ceramic technology, durability, and quality assurance to deliver exceptional braking performance. With a guarantee period covering 30,000 to 50,000 kilometers, it offers excellent longevity and peace of mind. Backed by a reputable factory number ZK-01001, this product is undoubtedly among the best brake pad brands you can trust for your vehicle's safety.

For those seeking the best ceramic brake pads that are environmentally friendly and built to last, the Disc Brake Pad Set is the ideal solution. Its balanced combination of performance, safety, and eco-conscious manufacturing makes it a standout choice that meets the needs of modern drivers. Upgrade your braking system today with this premium disc brake pads set and experience the difference in quality and reliability.

Features:

Product Name: Disc Brake Pad Set

Includes 1 Set per Package

Installation Type: Bolt-on

Installation Method: Bolt-On for easy and secure fitting

After Service Available for customer support and assistance

High-quality OEM brake pads for reliable performance

Manufactured as the best ceramic brake pads for superior stopping power

Durable ceramic brake pads designed for long-lasting use and reduced brake dust

Technical Parameters:

Product Name	Disc Brake Pad Set
Package Quantity	1 Set
Installation Method	Bolt-On
Factory No	ZK-01001
Shims Included	Yes
Brake Pad Type	Disc
Wear Resistance	High Wear Resistance
After Service	Yes
Installation Type	Bolt-On
Environmental Compliance	Lead And Asbestos Free

This disc brake pad set features good ceramic brake pads designed for high durability and performance. These ceramic brake pads

ensure excellent wear resistance and environmental compliance, making them an ideal choice for those seeking reliable ceramic brake pads.

Applications:

The Herito Disc Brake Pad Set, model number ZK-38001, is engineered to provide exceptional braking performance across a wide range of application occasions and scenarios. Manufactured in China with strict adherence to environmental compliance standards, these ceramic brake pads are lead and asbestos free, making them a safe and eco-friendly choice for vehicle owners who prioritize both performance and sustainability.

One of the primary occasions for using the Herito ceramic brake pad set is in everyday urban driving. The bolt-on installation method ensures a straightforward and secure fit, allowing drivers to quickly replace worn-out pads without hassle. Whether navigating busy city streets or handling frequent stop-and-go traffic, these good ceramic brake pads offer reliable stopping power and high wear resistance, ensuring longevity and consistent braking performance.

For drivers who often embark on long highway journeys or require dependable braking under high-speed conditions, the Herito ZK-38001 disc brake pads deliver outstanding heat dissipation and fade resistance. The ceramic brake pad material minimizes brake dust and noise, enhancing comfort and cleanliness inside the vehicle during extended drives. This makes them an excellent choice for commuters and long-distance travelers alike.

In more demanding scenarios such as mountainous terrain or hilly regions, the high wear resistance of these ceramic brake pads proves invaluable. They maintain optimal friction levels and durability even under heavy braking loads, providing enhanced safety and control on steep descents and winding roads. The Herito disc brake pad set is certified under ISO 9001 and ECE R90 standards, ensuring that it meets rigorous quality and safety benchmarks required for various driving conditions.

Additionally, the Herito ceramic brake pads are well-suited for use in light commercial vehicles and SUVs, where robust braking performance and durability are critical. Their environmentally friendly composition and reliable design make them an ideal replacement part for those seeking quality and sustainability in one package.

Overall, the Herito ZK-38001 ceramic brake pad set is designed to cater to a broad spectrum of driving occasions and scenarios, from daily commuting and highway cruising to more challenging conditions. These good ceramic brake pads combine ease of installation, superior wear resistance, and eco-conscious manufacturing to deliver a dependable braking solution for modern vehicles.

Customization:

Herito offers customized Disc Brake Pad Sets designed to meet your specific vehicle needs. Our OEM brake pads, model number ZK-38001, are manufactured in China at our factory No. ZK-01001, ensuring high quality and reliability. These bolt-on installation type brake pads are suitable for both front and rear placement, providing versatile application for various vehicles. Made from the best brake pad material, our disc brake pads deliver exceptional performance and durability. With a guarantee period ranging from 30,000 to 50,000 km, Herito's brake pads are recognized as the best ceramic brake pads in the market, offering superior braking efficiency and safety.
