

European Voyager,Ceramic Brake Pad,D858,05019805AA,R

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

Product Specification

- Product Name: European Voyager Ceramic Brake Pad
- Model: European Voyager
- Type: Brake Pad
- Material: Ceramic
- Factory No.: ZK-15006
- F/R: R
- FMSI: D858
- OEM: 05019805AA
- Braking System: AKB
- Highlight: **05019805aa ceramic brake pad,**
05019805aa ceramic brake pads

Product Description

Specifications	
Product name	European Voyager Brake Pad
Model	European Voyager
Type	Brake Pad
Material	Ceramic
F/R	R
Factory No.	ZK-15006
FMSI	D858
OEM	05019805AA
Braking System	KHY
Size	
Width	155.4 mm
Height	50.49 mm
Thickness	15.9 mm
Model_MARKE	European Voyager/ American Voyager/ Dodge Grand Caravan/ Dodge Caravan (01-05 European Version)

European Voyager Ceramic Brake Pads (D858, 05019805AA, R)

Enhance your driving experience with our European Voyager Ceramic Brake Pads, tailored for the discerning driver of European vehicles. Our brake pads, identified by part numbers D858 and 05019805AA, are engineered to meet the rigorous standards of European automotive excellence.

Crafted from advanced ceramic materials, these brake pads offer a significant upgrade over standard pads. They deliver exceptional stopping power, a quieter braking experience, and reduced brake dust, ensuring your wheels stay cleaner for longer. The robust construction guarantees a longer lifespan for both the pads and rotors, providing you with peace of mind on every journey.

Whether you're commuting through city traffic or enjoying a spirited drive on the open road, our European Voyager Ceramic Brake Pads ensure consistent performance and optimal safety. Trust in our brake pads to elevate the performance and aesthetics of your European vehicle.

Our ceramic brake pads, crafted from a specially formulated ceramic blend, showcase exceptional performance owing to their unique material composition.

The manufacturing process adheres to the rigorous standards of international certification IATF-16949, ensuring the utmost reliability in product quality.

Withstanding temperatures of up to 640°C, our ceramic brake pads offer a reliable safeguard for braking needs under diverse driving conditions.

Employing original high-precision molds and specialized heat treatment techniques, we guarantee the precision and stability of our products.

Addressing brake squeal concerns, our pads boast a friction coefficient of PS 0.35 and heat resistance up to 640°C, maintaining outstanding braking performance even in high-temperature environments. This prolongs lifespan and effectively resolves brake squeal issues.

Prioritizing safety and comfort, our stable friction coefficient preserves brake disc integrity, while the comfortable pedal feel and low-noise design enhance driving pleasure and reduce environmental pollution.

Featuring unique chamfered edges, our pads not only reduce braking noise but also enhance compatibility with counterpart components, further elevating braking performance.

Exceptional heat dissipation performance is achieved through high-temperature and high-pressure burnishing, reducing bedding-in periods and minimizing noise occurrences, thereby enhancing pad cooling efficiency and ensuring braking stability and safety.

Designed for lightweight, our ceramic brake pads, compared to traditional metal ones, effectively reduce vehicle load, improving fuel economy and power performance.

Minimizing brake dust, our ceramic brake pads produce less dust compared to their metal counterparts, making them environmentally friendly and less intrusive to the cleanliness of the vehicle surroundings and wheels.

Quality assurance is paramount to us. Through stringent quality controls and continuous research and development efforts, we ensure the stability and reliability of each ceramic brake pad, earning the trust and acclaim of our users.
