F/R	F
Factory No.	ZR-18001
FMSI	F928
OEM	LR019627
Braking System	Lucas Girling
Size	
Width	131.4 mm
Height	62 mm
Thickness	17.2 mm
Model_MARKE	Land Rover

Product Description:

One of the most remarkable features of this brake pad set is its thickness. It measures 14mm, which is thicker than most brake pads in the market. This thickness ensures that the brake pads can withstand high temperatures and wear and tear, prolonging their lifespan and providing optimal performance.

The Land Rover Brake Pad Set has a width of 155.1mm, which is suitable for the Land Rover models mentioned above. The width ensures that the brake pads fit perfectly and provide the best possible performance. Additionally, this brake pad set comes with a wear sensor that alerts the driver when it's time to replace the brake pads, making it easier to maintain and ensure optimal performance.

Overall, if you are looking for brake pads best suited for your Land Rover Discovery 4, Range Rover Sport, or Range Rover L322, then the Land Rover Brake Pad Set is the product you should consider. It offers durability, reliability, and optimal performance, making it the best choice for those who want nothing but the best for their vehicles.

Applications:

The thickness of each brake pad is 14mm, which is the best type of brake pads for your Land Rover. The brake pad set weighs 2.5kg, which is the perfect weight for your vehicle. This brake pad set comes with four pieces, which is enough for your Land Rover.

The Herito brake pad set is OE number LR019627, which means that it is the same brake pad set that is used by Land Rover. This ensures that the brake pad set is compatible with your Land Rover and will provide the best performance for your vehicle. The Herito brake pad set is perfect for any occasion or scenario. Whether you are driving on the highway or off-road, these brake pads will provide the best performance for your Land Rover. The brake pads are designed to provide the best stopping power for your vehicle, ensuring that you can stop quickly and safely.

If you are looking for the best brand of brake pads for your Land Rover, then look no further than the Herito brake pad set. These brake pads are designed to provide the best performance, durability, and compatibility for your vehicle. So, whether you are driving on the road or off-road, you can be confident that your Land Rover will have the best braking power with the Herito brake pad set.

Support and Services:

The Land Rover Brake Pad Set is designed and engineered to provide optimal performance and reliability for your Land Rover vehicle. Our technical support team is available to answer any questions you may have regarding the installation, compatibility, and maintenance of the brake pad set. In addition, we offer a range of services including brake pad replacement, brake system inspection, and brake fluid flush to ensure your vehicle's braking system is operating at its best. Trust in the quality and expertise of Land Rover to keep your vehicle safe and reliable on the road.

FAQ:

Q: What is the brand of this brake pad set?

A: The brand name of this product is Herito.

Q: Are these brake pads compatible with all Land Rover models?

A: No, these brake pads are only compatible with specific Land Rover models. Please check the product description or contact customer support to ensure compatibility with your vehicle.

Q: How many brake pads are included in this set?

A: This brake pad set includes four brake pads, enough for two wheels on your Land Rover.

Q: Are these brake pads easy to install?

A: Yes, these brake pads are designed for easy installation and can be installed using basic hand tools. However, it is recommended that installation is done by a certified mechanic.

Q: What is the material of these brake pads?

A: These brake pads are made of high-quality ceramic material, which provides excellent stopping power and durability.
