Product Description

Product Description:

Our brake pad set is composed of a ceramic friction material that delivers exceptional stopping power and durability. Ceramic brake pads are known for their ability to reduce brake dust and noise while providing consistent braking performance under various driving conditions. With our ceramic brake pads, you can experience smooth and quiet braking that will surely enhance your driving experience.

The Disc Brake Pad Set is designed for placement on both the front and rear of your vehicle, providing complete coverage for your braking system. Whether you're driving in the city or on the highway, our ceramic brake pads will provide the stopping power you need to ensure your safety on the road.

Our brake pad set is also an OE replacement, meaning it is manufactured to meet the same standards as the original equipment installed in your vehicle. This ensures a perfect fit and easy installation, eliminating the need for any modifications or brake pad tools.

The factory number for our product is ZK-26008, so you can be sure that you're getting a genuine and reliable product that is made to last. With our good ceramic brake pads, you can have peace of mind knowing that you're driving with a reliable and high-quality brake system.

Invest in the Disc Brake Pad Set today and experience the superior performance and reliability that our ceramic brake pads can provide. Order now and enjoy a safer and smoother driving experience!

Features:

Product Name: Disc Brake Pad Set

Factory No: ZK-26008

Asbestos-Free: Yes

Friction Material Composition: Ceramic

Hardware Included: Yes

Oe Replacement: Yes

These OEM brake pads are the best ceramic brake pads for your vehicle. They come with a brake pad tool and hardware included for easy installation. The friction material composition of ceramic ensures a quiet and smooth braking experience. Plus, with the assurance of OE replacement, you can trust that these brake pads will perform just as well as your vehicle's original parts.
