

## Front And Rear Disc Brake Pad Set ZK-26008 with Silent Design and Chamfer Design

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: OEM
- Certification: ISO9000
- Model Number: ALL
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: export packing
- Delivery Time: 30-60
- Payment Terms: T/T, LC
- Supply Ability: 15 Million

### Product Specification

- Placement On Vehicle: Front And Rear
- Compatibility: Fits Various Makes And Models
- Factory No: ZK-26008
- Product Type: Automotive Replacement Brake Pads
- Friction Material Composition: Ceramic
- Silent Design: Chamfer Design
- Asbestos-Free: Yes
- Fmsi: D451
- Highlight: **Chamfer Design Disc Brake Pad Set ,  
Silent Design Disc Brake Pad Set ,  
Front Rear Disc Brake Pad Set**

### Product Description:

One of the main advantages of the ceramic brake pad is that it is asbestos-free. Asbestos is a harmful substance that is commonly used in brake pads. Exposure to asbestos can cause serious health problems, including lung cancer and mesothelioma. With the Disc Brake Pad Set, you can have peace of mind knowing that you and your loved ones are safe from asbestos exposure.

The Disc Brake Pad Set is designed as an OE replacement brake pad. This means that it meets or exceeds the original equipment specifications of your vehicle's manufacturer. As an OE replacement brake pad, you can be sure that it will fit perfectly and perform just like the original brake pad.

The ceramic brake pad is one of the best types of brake pads available in the market. It is made from a combination of ceramic fibers, non-ferrous filler materials, bonding agents, and lubricants. This unique composition makes it an ideal choice for those looking for a high-performance brake pad. Ceramic brake pads offer superior stopping power, improved durability, reduced noise, and less dust compared to other types of brake pads.

The Disc Brake Pad Set has an FMSI (Friction Materials Standards Institute) rating of D451. This rating ensures that the brake pad meets the industry standards for quality, performance, and safety. With the D451 rating, you can be confident that the Disc Brake Pad Set will give you the best ceramic brake pad performance that you need.

In conclusion, the Disc Brake Pad Set is the perfect choice for those looking for the best ceramic brake pad in the market. It is asbestos-free, an OE replacement, made from high-quality ceramic material, and has an FMSI rating of D451. With its superior performance, durability, and reliability, the Disc Brake Pad Set is a wise investment for your vehicle's braking system.

### Features:

Product Name: Disc Brake Pad Set

Oe Replacement: Yes

Placement On Vehicle: Front And Rear

Package Quantity: 1 Set (4 Pieces)

Friction Material Composition: Ceramic

Fmsi: D451

Keywords: best brake pad material, ceramic brake pads, best ceramic brake pads

### Technical Parameters:

Product Type	Automotive Replacement Brake Pads
Material	Ceramic
OE Replacement	Yes
Hardware Included	Yes
Friction Material Composition	Ceramic
Dimensions	8.5 X 5.5 X 2.5 Inches
FMSI	D451
Placement On Vehicle	Front And Rear
Package Quantity	1 Set (4 Pieces)
Asbestos-Free	Yes

### Applications:

With an FMSI rating of D451 and dimensions of 8.5 x 5.5 x 2.5 inches, these brake pads are designed to fit perfectly and provide optimal performance. The ceramic friction material composition ensures reliable stopping power and long-lasting durability.

One of the standout features of these brake pads is the silent design, thanks to the chamfer design. This means you can enjoy a smooth and quiet ride without any annoying squeaking or grinding noises.

So, when might you need to use the Herito Disc Brake Pad Set? Here are some product application occasions and scenarios to consider:

Regular maintenance and replacement of worn-out brake pads

Upgrade to a higher quality brake pad material for improved performance and safety

Installation on a new or used vehicle to ensure reliable stopping power

Use in high-stress driving situations, such as towing or racing, where dependable brakes are essential

Overall, the Herito Disc Brake Pad Set is an excellent choice for anyone in need of reliable and high-performing brake pads. With its ceramic friction material composition and silent design, you can trust this product to provide the stopping power you need, when you need it.

### Customization:

## Packing and Shipping:

### Product Packaging:

This Disc Brake Pad Set comes in a sturdy cardboard box that is designed to protect the brake pads during shipping and storage. The box includes all four brake pads required for a complete brake replacement and an instruction manual to guide you through the installation process.

### Shipping:

The Disc Brake Pad Set is shipped through our trusted courier partners to ensure timely and safe delivery. The package will be shipped within 24 hours of placing the order and will be delivered within 3-5 business days. Once the package is shipped, you will receive a tracking number to monitor the delivery status.
