Product Description:

The brake pad set is made with Akebono braking system technology, which is known for its superior stopping power and durability. This technology ensures that your Nissan will stop quickly and safely, even in the most extreme driving conditions. The Akebono braking system is also known for its noise-reducing capabilities, so you can enjoy a quieter ride without sacrificing performance. The Nissan Racing Brake Pad Set also comes with Fmsi D815, which is a standardized code that ensures the brake pads are the correct size and shape for your Nissan vehicle. This code is important because it ensures a proper fit, which is essential for optimal braking performance. This brake pad set is made with ceramic brake pad customization, which is a process that allows for a more precise fit and increased durability. Ceramic brake pads are known for their superior performance and long lifespan, making them an excellent choice for Nissan drivers who demand the best. The Nissan Racing Brake Pad Set has an item weight of 3.2 pounds, making it lightweight and easy to install. This weight also ensures that your Nissan's performance is not compromised by heavy brake pads, allowing you to drive with confidence and peace of mind. If you're looking for a high-quality brake pad set that is compatible with your Nissan vehicle, look no further than the Nissan Racing Brake Pad Set. With its Akebono braking system technology, Fmsi D815 code, and ceramic brake pad customization, this brake pad set is the perfect choice for Nissan drivers who demand the best in performance and safety.
