Product Description:

The brake pads are made of ceramic material, which is known for their durability and long-lasting performance. The ceramic material used in these brake pads ensures that they can withstand high temperatures and pressure, making them ideal for high-performance driving. This also ensures that they are resistant to wear and tear, ensuring that they last longer than traditional brake pads. These brake pads come with a 1-year warranty, which guarantees that they are free from any defects in material and workmanship. This means that you can trust these brake pads to provide you with the best performance for your Porsche vehicle. The Porsche Brake Pad Set comes with all the hardware you need to install the brake pads on your vehicle. This ensures that you don't have to worry about purchasing any additional hardware or tools to install them. If you own a Porsche with carbon ceramic brakes, these brake pads are the perfect replacement for your worn-out brake pads. They are designed to provide the same level of performance and stopping power as your original carbon ceramic brake pads.

Features:

- Product Name: Porsche Brake Pad Set
- Width: 155mm
- Position: Front
- Hardware: Included
- Thickness: 14mm
- Quantity: 4 Pads
- Features carbon ceramic brake pads for improved performance and durability

Applications:

The product is made in China zibo, a region well-known for producing high-quality auto parts. It includes shims, wear sensor, and hardware, which makes the installation process hassle-free. This brake pad set includes 4 pads, which is enough for the front position of your Porsche car.

Whether you're driving on the highway or racing on a track, the Herito Brake Pad Set 201562 will provide consistent and reliable performance. It has been tested to ensure that it meets or exceeds OEM specifications, which means you can trust it to deliver the same level of performance as your original brake pads.

If you own a Porsche car, you know that the brakes are an essential part of the vehicle. That's why it's important to invest in high-quality brake pads that can keep up with your driving demands. The Herito Brake Pad Set 201562 is an excellent choice for those who want the best for their Porsche.

Whether you're driving on city streets or taking on challenging terrain, these brake pads can provide the stopping power you need to stay safe on the road. With the included wear sensor, you can also monitor the condition of the brake pads and replace them before they wear out completely.

Overall, the Herito Brake Pad Set 201562 is a top-of-the-line product that can deliver the performance and reliability you need for your Porsche car. Don't take any chances with your safety, and invest in the best brake pads for your vehicle today!

Customization:

Customize your Porsche brake pad set with Herito brand name, model number 201562, and place of origin in China Zibo. These brake pads are designed for clip-in installation and come in a set of 4 pads to ensure maximum stopping power. With a height of 72mm, these

brake pads are specifically designed for the front position. They come with a 1-year warranty for your peace of mind. Upgrade your brake system with these high-quality Herito brake pads front for your Porsche.

Support and Services:

The Porsche Brake Pad Set product is designed to meet the high standards of Porsche vehicles. Our technical support team is available to provide assistance with any questions or concerns regarding installation, usage, or maintenance of the brake pads. Our services include:
