Product Description:

The wear sensor is included in the set, allowing you to monitor the wear on your brake pads and ensure that they are replaced before they become a safety hazard. The package dimensions are 8.5 X 5.5 X 3 inches, and the weight of the set is 2.5 pounds. This makes it easy to store and transport until you are ready to install it on your vehicle. These BMW Brake Pads with Shims are made in Germany, ensuring that you get the highest quality materials and construction. The country of origin is an important factor to consider when purchasing automotive parts, as it can impact the durability and reliability of the product. The UPC for this product is 885170321235, making it easy to identify and purchase online or in-store. When it comes to the safety of your vehicle and passengers, it is important to choose brakes for BMW that you can trust. With the BMW Brake Pad Set with Wear Sensor, you can rest assured that you are getting a high-quality product that is designed to meet the exact specifications of your BMW. Don't take chances with your brakes - choose the best with BMW Brake Pads with Shims.

Features:

Product Name: BMW Brake Pad Set

Weight: 2.5 Pounds

Shims: Included
