Basic Information

- Place of Origin: CHINA
- Brand Name: ZKZB
- Certification: TIAF
- Model Number: 3225423
- Minimum Order Quantity: 100
- Price: 5.00-25.00
- Packaging Details: Shipping packing
- Delivery Time: 30 days
- Supply Ability: 4000000 sets/ year

Product Specification

- Asbestos-Free: Yes
- Material: Ceramic
- Compatibility: Fits Various Makes And Models
- Weight: 2.2 Pounds
- Factory No: ZK-26008
- Oe Replacement: Yes
- Braking System: GRL
- Silent Design: Chamfer Design
- Highlight: **Silent Ceramic Brake Pads,
Chamfer Ceramic Brake Pads,
Improved Safety Ceramic Brake Pads**

Product Description:

One of the standout features of these brake pads is the use of ceramic friction material composition. Ceramic brake pads are known for their excellent stopping power and long lifespan, making them a good ceramic brake pad choice for drivers who want reliable and consistent performance from their brakes. The ceramic material also helps to reduce noise and dust, providing a cleaner and more comfortable driving experience.

In addition to their ceramic composition, these brake pads are also lightweight, weighing in at just 2.2 pounds. This makes them easy to install and reduces the overall weight of the vehicle, which can have a positive impact on fuel economy and handling.

Another important feature of these brake pads is that they are asbestos-free. Asbestos is a harmful material that was once commonly used in brake pads, but has since been phased out due to health concerns. By choosing these asbestos-free brake pads, drivers can enjoy peace of mind knowing that they are not putting themselves or their passengers at risk.

Overall, the Disc Brake Pad Set is an excellent choice for drivers who want a high-quality and reliable set of brake pads for their vehicle. With their ceramic friction material composition, lightweight design, and asbestos-free construction, these brake pads offer exceptional performance and safety. Whether you are a professional mechanic or a DIY enthusiast, these ceramic brake pads are a great investment that will help keep your vehicle running smoothly and safely for years to come.

Features:

Product Name: Disc Brake Pad Set

Product Type: Automotive Replacement Brake Pads

Compatibility: Fits Various Makes And Models

Asbestos-Free: Yes

Friction Material Composition: Ceramic

Factory No: ZK-26008

Keywords: best ceramic brake pads, ceramic brake pad, disc brake pads

Technical Parameters:

Asbestos-Free	Yes
Friction Material Composition	Ceramic
Dimensions	8.5 X 5.5 X 2.5 Inches
Package Quantity	1 Set (4 Pieces)
Product Type	Automotive Replacement Brake Pads
Compatibility	Fits Various Makes And Models
Material	Ceramic
Weight	2.2 Pounds
Hardware Included	Yes
Fmsi	D451

Applications:

One of the best features of this product is its silent design that incorporates a chamfer design. This feature reduces noise, vibration, and harshness (NVH) during braking, making it one of the best brake pad brand options for drivers who value a peaceful driving experience. The Fmsi of this product is D451, which means that it is a semi-metallic brake pad that has been tested and approved by the Federal Motor Vehicle Safety Standards. This ensures that the product meets the required braking system standards and is safe to use on the road.

The ZKZB 3225423 disc brake pad set is perfect for a wide range of braking system scenarios, including GRL braking systems. This makes it a versatile product that can be used by drivers of different car models and brands.

Whether you are driving a sports car, a sedan, or a truck, this product is guaranteed to provide you with the best braking performance you need. The ceramic friction material composition ensures that the brake pad has a long lifespan, making it a cost-effective investment for car owners.

Overall, the ZKZB 3225423 disc brake pad set is the best ceramic brake pad option for those who are looking for a reliable and cost-effective product that can deliver excellent braking performance. With its silent design, semi-metallic Fmsi, and compatibility with GRL braking systems, this product is an excellent choice for any driver who values safety and performance on the road.

Customization:

Support and Services:

Our Disc Brake Pad Set is designed to provide reliable and consistent stopping power for your vehicle. Made from high-quality materials, these brake pads are engineered to withstand high temperatures and reduce noise and vibration during braking.

Our product technical support team is available to assist you with any questions or concerns you may have about the installation or performance of our brake pads. We also offer a range of services to help you maintain and optimize the performance of your braking system, including:

Brake system inspections

Brake fluid flushes

Brake rotor resurfacing

Brake caliper replacement

Our team of experts is dedicated to ensuring your safety on the road and the longevity of your vehicle's braking system. Trust our Disc Brake Pad Set and our technical support and services to keep you driving with confidence.

Packing and Shipping:

Product Packaging:

The Disc Brake Pad Set will be packaged in a sturdy cardboard box with foam inserts to ensure that the brake pads are well-protected during shipping. The box will also include a label with product information and handling instructions.

Shipping:

The product will be shipped via standard ground shipping and will usually arrive within 5-7 business days. Shipping costs will be calculated at checkout based on the destination and shipping speed selected by the customer. Tracking information will be provided once the package has been shipped.
