Product Description:

The Disc Brake Pad Set with FMSI code D1497 is a top-quality product designed for optimal performance and durability. Its Manufacturer Part Number is DBP-001, ensuring compatibility and precise fitment for various vehicles.

One of the key features of this brake pad set is its Silent Design with Chamfer Design. This design minimizes noise and vibrations during braking, providing a smooth and quiet driving experience. Whether you are commuting in the city or cruising on the highway, these brake pads ensure a comfortable ride with minimal noise disturbance.

Furthermore, these brake pads are Heat Resistant, making them ideal for high-performance driving conditions. The heat-resistant properties of these pads help maintain consistent braking performance, even under extreme temperatures. This feature ensures reliable stopping power and enhances overall safety on the road.

As a Type: Brake Pad, this product is designed to meet the demanding requirements of modern vehicles. Whether you drive a compact car, SUV, truck, or sports car, these brake pads deliver consistent and reliable performance. They are suitable for both daily driving and more spirited driving styles, making them a versatile choice for a wide range of drivers.

When it comes to OEM brake pads, this Disc Brake Pad Set stands out as one of the best brake pad brands in the market. Its exceptional quality, reliable performance, and durability make it a popular choice among car enthusiasts, mechanics, and everyday drivers alike. The ceramic construction of these brake pads further enhances their performance, providing smooth and responsive braking with minimal noise and dust.

In conclusion, if you are looking for good ceramic brake pads that offer superior performance, reliability, and comfort, the Disc Brake Pad Set with FMSI code D1497 and Manufacturer Part Number DBP-001 is an excellent choice. With its Silent Design, Heat Resistant properties, and overall high quality, these brake pads are sure to meet and exceed your expectations. Upgrade your braking system today with these top-notch brake pads for a safer and more enjoyable driving experience.

Technical Parameters:

Package Quantity	1 Set
Manufacturer Part Number	DBP-001
Type	Brake Pad
Heat Resistant	Yes
Position	Front And Rear
Fmsi	D1497
Upc	123456789012
Product Weight	2.5 Pounds
Silent Design	Chamfer Design
Material	Ceramic

Applications:

ZKZB disc brake pad set model number 3225423 is a top-quality product designed for various application occasions and scenarios. Made in China, these brake pads are suitable for both front and rear positions, making them versatile for different types of vehicles.

The silent design of these brake pads, featuring a chamfer design, ensures smooth and quiet braking performance, reducing noise and vibration during use. This makes them ideal for everyday driving as well as more demanding situations.

With FMSI code D1497, these brake pads offer excellent heat resistance, providing consistent and reliable braking even under high temperatures. This feature is particularly beneficial for long drives, heavy loads, or performance driving where brakes are subjected to intense heat.

Manufactured by ZKZB, the manufacturer part number DBP-001 guarantees the quality and reliability of these brake pads. Customers can trust in the brand's reputation for producing durable and high-performing automotive parts.

Whether you are driving in city traffic, on the highway, or off-road, these disc brake pads deliver the braking power and control needed to ensure safety and performance. They are compatible with a wide range of vehicles, making them a versatile choice for both personal and commercial use.

When it comes to brake pad tools, these pads are easy to install and require minimal maintenance, saving you time and effort. The best brake pad material is used in their construction, ensuring long-lasting performance and consistent stopping power.

Customization:

Enhance your braking performance with our top-of-the-line ZKZB Disc Brake Pad Set customized to fit Model Number: 3225423. Manufactured in China, this set includes 4 pieces for Front And Rear positioning. OEM part number: 96534653, FMSI: D1497. Our silent design features a chamfer design for smoother braking. Choose the best brake pad brand for your vehicle and experience the benefits of the best ceramic brake pads.

Support and Services:

Our product technical support team is available to assist you with any questions or issues regarding the Disc Brake Pad Set. We provide expert guidance on installation, compatibility, and maintenance to ensure optimal performance of your brake pads. In addition, our services include product warranty support, troubleshooting assistance, and recommendations for replacement or upgrades. We are dedicated to helping you get the most out of your Disc Brake Pad Set and ensure your safety on the road.

Packing and Shipping:

Product Packaging and Shipping:

Ensure your vehicle's safety with our premium Disc Brake Pad Set. Each set includes four brake pads designed for optimal performance and durability.

Packaging: The brake pads are securely packed in a durable cardboard box to prevent damage during transit.

Shipping: We offer fast and reliable shipping options to ensure your brake pads reach you in a timely manner. Your order will be carefully packaged and shipped to your designated address.
