

## Black Disc Brake Pad Set Chamfered for Improved Efficiency UPC 123456789012

### Basic Information

- Brand Name: ZKZB
- Model Number: ZK-01001

### Product Specification

- Upc: 123456789012
- Chamfered: Yes
- Factory No: ZK-01001
- Package Quantity: 1 Set (4 Pieces)
- Material: Ceramic
- Product Dimensions: 6 X 6 X 0.67 Inches
- Easy To Install: Yes
- Quantity: 4 Pieces

**Product Description:**

The Disc Brake Pad Set with part number DBP-001 is a high-quality product designed to deliver reliable and efficient braking performance. Made from ceramic material, these brake pads offer exceptional durability and stopping power, making them an excellent choice for various vehicles. When it comes to choosing the right brake pads for your vehicle, ceramic brake pads are often considered a top choice due to their superior performance and longevity. Ceramic brake pads are known for their excellent resistance to heat and friction, resulting in consistent braking power and reduced wear on the brake rotor. These qualities make them a popular option for drivers looking for reliable and long-lasting brake pads. The DBP-001 Disc Brake Pad Set features ceramic brake pads that are engineered to meet the highest standards of quality and performance. Whether you are driving in everyday traffic or tackling challenging road conditions, these brake pads are designed to provide reliable and responsive braking performance when you need it most. One of the key advantages of ceramic brake pads is their ability to deliver smooth and quiet braking operation. Unlike traditional brake pads that can be noisy and produce excessive dust, ceramic brake pads offer a quieter and cleaner braking experience. This makes them an excellent choice for drivers who value comfort and convenience during their daily commute or long road trips. When it comes to safety and reliability, investing in good ceramic brake pads like the DBP-001 Disc Brake Pad Set is crucial. The superior braking performance and durability of ceramic brake pads help ensure that your vehicle can come to a stop quickly and effectively, reducing the risk of accidents and promoting safe driving practices. For drivers who prioritize performance and quality, choosing the best ceramic brake pads is essential. The DBP-001 Disc Brake Pad Set stands out as a top choice for drivers looking for exceptional braking performance, long-lasting durability, and reliable stopping power. With shims included for added convenience and ease of installation, this brake pad set offers everything you need to maintain your vehicle's braking system in top condition. When you purchase the DBP-001 Disc Brake Pad Set, you will receive a package quantity of 1 set, which includes 4 pieces of ceramic brake pads. This ensures that you have all the necessary components to replace your old brake pads and upgrade to a high-quality braking solution that will enhance your driving experience. In conclusion, the DBP-001 Disc Brake Pad Set is a top-of-the-line product that offers the best in ceramic brake pad technology. With superior performance, durability, and reliability, these brake pads are a smart investment for any driver looking to upgrade their vehicle's braking system. Experience the benefits of good ceramic brake pads with the DBP-001 Disc Brake Pad Set and enjoy a smoother, quieter, and safer driving experience on the road.

**Features:**

- Product Name: Disc Brake Pad Set
- Installation Method: Bolt-On
- Part Number: DBP-001
- Material: Ceramic
- Factory No: ZK-01001
- Product Placement: Front And Rear

**Technical Parameters:**

Part Number	DBP-001
Factory No	ZK-01001
Product Dimensions	6 X 6 X 0.67 Inches
Product Type	Brake Pads
Chamfered	Yes
UPC	123456789012
Easy To Install	Yes
Quantity	4 Pieces
Warranty	1 Year
Package Quantity	1 Set (4 Pieces)

**Applications:**

ZKZB Disc Brake Pad Set (Part Number: DBP-001) is a top-quality product designed for various applications. Made from high-grade ceramic material, these brake pads offer exceptional performance and durability, making them suitable for a wide range of vehicles and driving conditions. These good ceramic brake pads are manufactured in China, ensuring high standards of quality and reliability. The ZK-01001 model is an OEM brake pad set that meets or exceeds the specifications of original equipment manufacturers, making it a trusted choice for vehicle owners and automotive professionals. One of the key features of this brake pad set is its ease of installation, allowing for a hassle-free replacement process. Whether you are a DIY enthusiast or a professional mechanic, you can quickly and easily install these best ceramic brake pads without any complications.

Furthermore, the chamfered design of the ZKZB Disc Brake Pad Set ensures smooth and quiet braking performance, reducing noise and vibrations during braking. This feature enhances overall driving comfort and safety, making it an ideal choice for everyday driving as well as performance-oriented applications.

Each package contains 1 set of brake pads, which includes 4 pieces in total. This package quantity ensures that you have all the necessary components to complete a full brake pad replacement on your vehicle, providing convenience and value for money.

Whether you are looking to upgrade your current brake pads or simply need a reliable replacement option, the ZKZB Disc Brake Pad Set offers a combination of quality, performance, and ease of installation that makes it a standout choice for various occasions and scenarios.
