

## ZK-11001 Disc Brake Pad Set Engineered to Fit ATE Braking System Brake Pad for Heavy Duty and Automotive Vehicle Braking

Our Product Introduction

for more products please visit us on [heritobrake.com](http://heritobrake.com)

### Basic Information

- Brand Name: Herito
- Model Number: ZK-10001

### Product Specification

- Heatresistance: Up To 600°C
- Thickness: 0.5 Inches
- Certifications: ISO 9001, DOT Approved
- Manufacturer Part Number: ZK-11001
- Wearindicator: Included
- Chamfered: Yes
- Warranty: 12 Months Manufacturer Warranty
- Braking System: ATE

### Product Description:

Introducing our premium Disc Brake Pad Set, designed to deliver outstanding braking performance and reliability for a wide range of vehicles. This set includes 1 complete set consisting of 4 pieces, providing you with everything needed to replace your worn-out brake pads and restore your vehicle's braking system to optimal condition. Whether you are a professional mechanic or a car enthusiast, this brake pad set offers a perfect balance of quality, durability, and ease of installation.

Each brake pad in this set features a thickness of 0.5 inches, ensuring a long service life and consistent braking power. The substantial thickness helps maintain effective braking performance over time, reducing the frequency of replacements and enhancing overall safety on the road. Additionally, the pads are chamfered, a design feature that helps reduce noise and vibration during braking. Chamfered edges ensure smooth engagement with the brake rotor, minimizing squealing sounds and providing a more comfortable driving experience.

Our Disc Brake Pad Set utilizes good ceramic brake pads that are engineered to meet and exceed OEM brake pads standards. Ceramic brake pads are renowned for their excellent performance characteristics, including quieter operation, reduced dust production, and superior heat dissipation compared to traditional metallic brake pads. These qualities make ceramic brake pads an ideal choice for drivers seeking reliable stopping power without compromising on comfort or cleanliness. The ceramic formulation also contributes to less rotor wear, helping to extend the life of your braking components.

Installation of this brake pad set is straightforward and user-friendly, thanks to its bolt-on installation type. This means the pads can be securely mounted using standard bolts, allowing for a hassle-free replacement process that saves time and effort. Whether you are performing routine maintenance or a full brake system overhaul, this bolt-on design ensures a secure fit and reliable performance without the need for specialized tools or complicated procedures.

Quality and safety are paramount when it comes to braking components, and our Disc Brake Pad Set is designed with these priorities in mind. The product is certified with ISO 9001, an internationally recognized standard for quality management systems. This certification guarantees that the manufacturing process adheres to stringent quality control measures, resulting in a consistent and dependable product. Furthermore, the brake pads are DOT approved, meeting the safety standards established by the Department of Transportation. This approval confirms that the brake pads are safe for use on public roads and comply with all necessary regulatory requirements.

In summary, this Disc Brake Pad Set offers a comprehensive solution for drivers seeking a reliable, efficient, and high-quality braking upgrade. With a package quantity of 1 set (4 pieces), a thickness of 0.5 inches, chamfered edges for noise reduction, and a convenient bolt-on installation type, these brake pads combine practicality with top-tier performance. The use of good ceramic brake pads ensures quieter braking, less dust, and enhanced durability, matching or exceeding the performance of OEM brake pads. Backed by ISO 9001 certification and DOT approval, you can trust that this brake pad set meets the highest standards of quality and safety. Upgrade your vehicle's braking system today with this exceptional ceramic brake pad set for a smoother, safer, and more enjoyable driving experience.

### Features:

- Product Name: Disc Brake Pad Set
- Manufacturer Part Number: ZK-11001
- Material: High-quality ceramic
- Type: Ceramic brake pads for superior performance
- Certifications: ISO 9001 certified and DOT approved
- FMSI Number: D868
- Warranty: 12 months manufacturer warranty included
- Durable and reliable disc brake pads designed for safety and efficiency
- Low dust ceramic brake pad formula for cleaner wheels
- Enhanced braking performance with ceramic brake pad technology

### Technical Parameters:

Heat Resistance	Up To 600°C
Certifications	ISO 9001, DOT Approved
Braking System	ATE
Easy To Install	Yes
FMSI	D868
Warranty	12 Months Manufacturer Warranty
Material	Ceramic
Manufacturer Part Number	ZK-11001
Wear Indicator	Included
Installation Type	Bolt-on

### Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is designed to offer superior braking performance across a variety of

applications and scenarios. Manufactured in China with precision under the ATE braking system standards, this set is an ideal choice for drivers seeking reliable and efficient braking solutions. Featuring the best brake pad material, these OEM brake pads ensure optimal friction, durability, and noise reduction, making them suitable for both everyday commuting and more demanding driving conditions. One of the primary occasions to use the Herito Disc Brake Pad Set is during routine vehicle maintenance or brake system upgrades. The bolt-on installation type allows for easy replacement, reducing downtime and ensuring a perfect fit without the need for complex modifications. Whether you are a professional mechanic or a DIY enthusiast equipped with the appropriate brake pad tool, installing these pads is straightforward and hassle-free. The interchange part numbers D1293 and D1222 make it compatible with a wide range of vehicle models, providing flexibility and convenience for various automotive needs.

For urban drivers who encounter frequent stop-and-go traffic, the Herito brake pads deliver consistent stopping power, enhancing safety and control in congested environments. Additionally, they perform flawlessly during highway driving, where sustained braking is necessary. The 12 months manufacturer warranty provides peace of mind, assuring users of the product's quality and longevity under normal operating conditions.

In more specialized scenarios such as spirited driving or light off-road excursions, these brake pads maintain their integrity and performance, thanks to the advanced materials used in their construction. This ensures that heat dissipation and wear resistance are optimized, preventing brake fade even under intense usage. The manufacturer part number ZK-11001 identifies this product within Herito's catalog, confirming its authenticity and adherence to stringent quality controls.

In summary, the Herito Disc Brake Pad Set is perfectly suited for a wide array of applications – from daily driving and professional repairs to performance enhancements. Utilizing the best brake pad material and compatible with essential brake pad tools, these OEM brake pads provide dependable stopping power, easy installation, and long-lasting durability, making them a smart investment for any vehicle owner looking to maintain or improve their braking system.

### **Customization:**

Herito offers premium product customization services for the Disc Brake Pad Set, model number ZK-10001. Manufactured in China, these brake pads are designed to meet the highest standards, featuring certifications such as ISO 9001 and DOT Approval. Our customization options ensure you receive good ceramic brake pads tailored to your specific vehicle requirements, enhancing performance and safety. This product type is a brake pad set that includes 1 set (4 pieces) with a wear indicator for timely maintenance alerts. We specialize in ceramic brake pads, known for their durability and quiet operation, providing you with reliable and efficient braking performance. Whether you need a standard ceramic brake pad or a customized solution, Herito guarantees a 12-month manufacturer warranty for your peace of mind.

Choose Herito for high-quality, customizable ceramic brake pads that combine safety, longevity, and excellent braking power, all backed by trusted certifications and dedicated customer support.
