

Disc Brakes Ceramic Brake Pad Numberofpads 4 Precision Engineered for Industrial and Commercial Vehicle Braking Systems

Our Product Introduction

Basic Information

- Brand Name: Herito
- Model Number: ZK-28001

Product Specification

- Guarantee Peroid: 30000-50000km
- Brake Type: Disc Brakes
- Packing: Customized
- Compatibility: Universal Fit For Most Cars And Motorcycles
- Manufacturer Part Number: DBP-001
- Heatresistance: Up To 500°C
- Oe Replacement: Yes
- Certifications: ISO 9001, DOT Approved

Product Description:

The Disc Brake Pad Set is engineered to provide superior braking performance and reliability, making it an essential upgrade for both cars and motorcycles. Designed with universal compatibility in mind, these disc brake pads offer a perfect fit for most vehicles on the road today, ensuring seamless installation and optimal functionality. Whether you are a daily commuter or an avid rider, this brake pad set guarantees enhanced safety and control in all driving conditions.

One of the standout features of this Disc Brake Pad Set is its interchange part number compatibility, including D1293 and D1222. This ensures that the pads can easily replace existing worn-out components without the hassle of searching for specific models, saving time and effort. The pads are manufactured as an OE replacement, meeting or exceeding the original equipment standards set by vehicle manufacturers. This certification assures buyers of the highest quality and precise engineering, making these pads a reliable choice for maintaining the integrity of your braking system.

When it comes to brake types, this pad set is specifically designed for disc brakes, which are widely recognized for their efficiency and superior stopping power compared to drum brakes. Disc brakes are common in modern vehicles due to their ability to dissipate heat quickly and provide consistent braking performance. By choosing this Disc Brake Pad Set, you are investing in components that perfectly complement the disc brake system, ensuring smooth, quiet, and responsive braking every time you hit the road.

Customization is another key attribute of this product. The packing is tailored to meet specific requirements, offering a personalized touch that enhances the overall customer experience. Whether you are purchasing for personal use or as a supplier, the customized packing ensures the product arrives securely and professionally presented. This attention to detail reflects the manufacturer's commitment to quality and customer satisfaction.

Among the vast array of options in the market, this Disc Brake Pad Set is recognized as one of the best ceramic brake pads available. Ceramic brake pads are renowned for their durability, low dust production, and quiet operation. They provide excellent stopping power while maintaining a longer lifespan compared to traditional organic or semi-metallic pads. Choosing ceramic pads means fewer replacements and less maintenance, making them a cost-effective solution in the long run.

Furthermore, this product is produced by one of the best brake pad brands in the industry, known for its innovation, reliability, and stringent quality control measures. The brand's reputation ensures that every set of disc brake pads undergoes rigorous testing to meet safety and performance standards. This dedication to excellence makes the Disc Brake Pad Set a trusted choice among automotive enthusiasts and professionals alike.

In summary, the Disc Brake Pad Set offers universal compatibility with most cars and motorcycles, making it a versatile and practical option for a wide range of users. Its interchangeability with part numbers D1293 and D1222, coupled with OE replacement quality, guarantees a seamless and dependable upgrade to your vehicle's braking system. Designed specifically for disc brakes, these pads deliver outstanding braking efficiency and durability. With customized packing and the backing of a leading brake pad brand, this product not only meets but exceeds customer expectations. If you are searching for the best ceramic brake pads that combine performance, longevity, and safety, this Disc Brake Pad Set is undoubtedly a top contender in the market.

Features:

- Product Name: Disc Brake Pad Set
- Brake Pad Type: Disc
- Brake Type: Disc Brakes
- Guarantee Period: 30,000 - 50,000 km
- Heat Resistance: Up to 500°C
- Compatibility: Universal fit for most cars and motorcycles
- Made from high-quality materials, recognized as the best brake pad brand
- Designed to meet or exceed OEM brake pads standards
- Features the best ceramic brake pads for superior performance and durability

Technical Parameters:

Product Dimensions	8.5 X 6.5 X 0.7 Inches
Manufacturer Part Number	DBP-001
Interchange Part Number	D1293 D1222
Guarantee Period	30000-50000km
Installation Method	Bolt-On
OE Replacement	Yes
Compatibility	Universal Fit For Most Cars And Motorcycles
Model	Buick Firstland
Package Contents	4 Brake Pads
Certifications	ISO 9001, DOT Approved

Applications:

The Herito Disc Brake Pad Set, model number ZK-28001, is designed to offer superior performance and reliability for a wide range of - - -

vehicles. Manufactured in China, these brake pads are engineered to meet and exceed OEM brake pads standards, making them an excellent choice for drivers seeking the best ceramic brake pads available on the market. Whether you are performing routine maintenance or upgrading your vehicle's braking system, this set ensures optimal stopping power and safety.

Ideal for everyday driving, the Herito Disc Brake Pad Set is perfect for city commutes, highway cruising, and even more demanding driving conditions. The bolt-on installation method allows for easy and secure fitting, ensuring that the brake pads remain firmly in place under all driving circumstances. With a heat resistance capability of up to 500°C, these pads provide consistent braking performance even during heavy use, such as in mountainous terrain or during long downhill drives where brake fade can be a concern.

Each set includes four pads, providing comprehensive coverage for both front or rear axles, depending on the vehicle's requirements. The Herito pads are designed to be interchangeable with part numbers D1293 and D1222, making them a versatile replacement option compatible with many vehicle models. This compatibility ensures that drivers can maintain the integrity of their braking system without compromising on quality or performance.

One of the key advantages of choosing Herito's brake pads is their impressive guarantee period, covering 30,000 to 50,000 kilometers of use. This guarantee reflects the durability and long-lasting nature of the product, giving drivers peace of mind and confidence in their braking system. Whether you are a professional mechanic or a vehicle owner looking for reliable OEM brake pads, the Herito Disc Brake Pad Set offers a perfect balance of performance, longevity, and value.

In summary, the Herito ZK-28001 disc brake pads are suitable for a variety of application occasions and scenarios, including daily commuting, long-distance travel, and even more performance-intensive driving. Their high heat resistance, easy installation, and compatibility with OEM brake pads standards make them the best ceramic brake pads choice for those who prioritize safety, efficiency, and durability in their braking systems.

Customization:

Herito offers product customization services for the Disc Brake Pad Set, model number ZK-28001, designed specifically for Buick Firstland disc brakes. As the best brake pad brand, we ensure that each brake pad set is manufactured using the best brake pad material to guarantee superior performance and durability. Our disc brake pads come with OE replacement compatibility and meet strict quality standards, holding ISO 9001 certification and DOT approval. Located in China, Herito provides tailored brake pad solutions to fit your exact needs, and we also offer customization of brake pad tools to facilitate installation and maintenance.
