Basic Information

- Brand Name: Herito
- Model Number: ZK-28001

Product Specification

- Interchange Part Number: D1293 D1222
- Oe Replacement: Yes
- Product Dimensions: 8.5 X 6.5 X 0.7 Inches
- Certifications: ISO 9001, DOT Approved
- Package Contents: 4 Brake Pads
- Compatibility: Universal Fit For Most Cars And Motorcycles
- Model: Buick Firstland
- Heatresistance: Up To 500°C

Product Description:

The Disc Brake Pad Set is an essential component for ensuring the safety and performance of your vehicle's braking system. Designed with advanced materials and engineering, this set offers exceptional durability and reliability, making it an excellent choice for drivers seeking high-quality braking solutions. Whether you are driving a car or a motorcycle, this product promises to deliver outstanding stopping power and consistent performance under various driving conditions.

One of the most remarkable features of this Disc Brake Pad Set is its impressive heat resistance, capable of withstanding temperatures up to 500°C. This high heat tolerance ensures that the brake pads maintain their structural integrity and performance even during intense braking sessions, such as downhill driving or heavy traffic stops. The ability to resist heat buildup effectively reduces the risk of brake fade, providing you with safer and more reliable braking every time you hit the road.

With product dimensions measuring 8.5 X 6.5 X 0.7 inches, these brake pads are designed to fit seamlessly into a wide range of braking systems. Their universal compatibility makes them a versatile choice for most cars and motorcycles, providing a perfect balance of convenience and performance. Whether you own a compact car, a sedan, or a motorcycle, these brake pads are engineered to offer a precise fit and optimal braking efficiency.

This Disc Brake Pad Set is specifically modeled for the Buick Firstland, ensuring tailored performance and compatibility for this particular vehicle. However, it also works effectively with a broad range of other vehicle models, thanks to its universal fit design. This flexibility makes it a practical option for drivers looking to upgrade or replace their existing brake pads without worrying about fitment issues. Durability is a key aspect of these brake pads, with a guarantee period covering 30,000 to 50,000 kilometers. This long-lasting performance means you can rely on the pads for extended periods without frequent replacements, reducing maintenance costs and downtime. The robust construction and quality materials used in manufacturing contribute to the brake pads' longevity, ensuring you get the best value for your investment.

When it comes to selecting brake pads, choosing a good ceramic brake pad is crucial for optimal braking performance and safety. This Disc Brake Pad Set incorporates high-grade ceramic materials that provide excellent friction characteristics, low noise, and minimal dust generation. These attributes not only enhance the braking experience but also help keep your wheels cleaner, contributing to the overall aesthetics of your vehicle.

This product stands out as one of the best brake pad brands in the market, known for its consistent quality, reliability, and customer satisfaction. The combination of advanced ceramic technology and rigorous quality control processes ensures that you receive a product that meets the highest standards in performance and safety. For drivers prioritizing both safety and comfort, these brake pads are considered among the best ceramic brake pads available today.

In summary, the Disc Brake Pad Set offers an exceptional blend of heat resistance, durability, universal compatibility, and superior braking performance. It is an ideal choice for those who want to upgrade their vehicle's braking system with a product that guarantees safety, longevity, and efficiency. With a fit specifically for the Buick Firstland and compatibility with most cars and motorcycles, this set is versatile and dependable. Coupled with a guarantee period of 30,000 to 50,000 kilometers, it provides peace of mind and excellent value. If you are searching for good ceramic brake pads from the best brake pad brand, this Disc Brake Pad Set is undoubtedly a smart investment for maintaining your vehicle's braking performance at its peak.

Features:

- Product Name: Disc Brake Pad Set
- Dimensions: 8.5 X 6.5 X 0.7 Inches
- Includes 4 high-quality ceramic brake pads
- Designed as OEM brake pads for perfect OE replacement
- Compatible Model: Buick Firstland
- Durable with a guarantee period of 30,000-50,000 km
- Engineered to provide the best ceramic brake pads performance

Technical Parameters:

Installation Method	Bolt-On
Certifications	ISO 9001, DOT Approved
Packing	Customized
Number of Pads	4
Brake Type	Disc Brakes
OE Replacement	Yes
Interchange Part Number	D1293 D1222
Compatibility	Universal Fit For Most Cars And Motorcycles
Model	Buick Firstland
Package Contents	4 Brake Pads

Applications:

The Herito Disc Brake Pad Set, model number ZK-28001, is designed to deliver exceptional braking performance and reliability for a wide

range of vehicles. Manufactured in China, these ceramic brake pads are known for their durability, low noise, and excellent heat dissipation, making them the best brake pad material choice for both everyday driving and demanding conditions. These disc brake pads are compatible with the Buick Firstland model, ensuring a precise fit and optimal braking efficiency. Additionally, with interchange part numbers D1293 and D1222, the Herito ZK-28001 brake pads offer universal fitment for most cars and motorcycles, providing versatility for various vehicle types. This universal compatibility makes them an ideal option for drivers seeking a reliable and high-quality brake pad solution without worrying about specific vehicle restrictions. The bolt-on installation method simplifies the replacement process, allowing for quick and secure attachment to the disc brakes system. This ease of installation is particularly beneficial for DIY enthusiasts and professional mechanics alike, reducing downtime and ensuring the vehicle is back on the road swiftly. These ceramic brake pads are perfect for a wide range of application occasions and scenarios. For daily commuting, they provide smooth and consistent braking performance, enhancing safety and comfort during city driving or highway cruising. For those who enjoy weekend road trips or long-distance driving, the Herito brake pads maintain their effectiveness even under prolonged use and high temperatures, thanks to their superior heat resistance. In more demanding scenarios, such as mountainous or hilly terrain, where frequent braking is required, these ceramic brake pads offer better fade resistance compared to traditional materials. This ensures reliable stopping power and increased driver confidence. Moreover, their low dust production keeps wheels cleaner, making them suitable for urban environments where maintaining vehicle appearance is important. Whether you are replacing worn-out pads on your motorcycle or upgrading the braking system on your car, the Herito ZK-28001 ceramic brake pads provide a high-quality, durable solution that meets the needs of diverse driving conditions. Their universal fitment, ease of installation, and outstanding performance make them a top choice for anyone seeking the best brake pad material to enhance safety and driving comfort.

Customization:

Herito offers product customization services for the Disc Brake Pad Set, model number ZK-28001, designed specifically for the Buick Firstland. Manufactured in China, this disc brake pad set features the best brake pad material to ensure superior performance and durability. Our good ceramic brake pads provide excellent stopping power and reduced noise, making them ideal for a wide range of vehicles. With universal fit compatibility for most cars and motorcycles, these brake pads can be customized to meet your specific packing requirements. The manufacturer part number DBP-001 guarantees authenticity and quality in every set.
