

## 8.5 X 6.5 X 0.7 Inches Disc Brake Pad Set Universal Fit Most Cars Motorcycles Interchange Part Number D1293 D1222 Braking

Our Product Introduction

for more products please visit us on [heritobrake.com](http://heritobrake.com)

### Basic Information

- Brand Name: Herito
- Model Number: ZK-28001

### Product Specification

- Brake Type: Disc Brakes
- Product Dimensions: 8.5 X 6.5 X 0.7 Inches
- Interchange Part Number: D1293 D1222
- Guarantee Peroid: 30000-50000km
- Manufacturer Part Number: DBP-001
- Numberofpads: 4
- Oe Replacement: Yes
- Compatibility: Universal Fit For Most Cars And Motorcycles

**Product Description:**

The Disc Brake Pad Set is an essential component designed to provide reliable and efficient braking performance for vehicles equipped with disc brakes. This set includes 4 high-quality brake pads, perfectly engineered to serve as an OE replacement, ensuring compatibility and seamless fit with your vehicle's existing braking system. Whether you are performing routine maintenance or replacing worn-out pads, these brake pads are engineered to deliver superior stopping power and enhanced safety on the road.

One of the standout features of this Disc Brake Pad Set is its composition using advanced ceramic materials, making it an excellent choice among good ceramic brake pads available in the market today. Ceramic brake pads have become increasingly popular due to their ability to offer quieter braking, reduced dust production, and longer lifespan compared to traditional organic or semi-metallic brake pads. This set exemplifies these advantages, making it a preferred option for drivers who value both performance and cleanliness.

As an OE replacement, this Disc Brake Pad Set is designed to meet or exceed the original equipment specifications, ensuring optimal performance and durability. The pads are manufactured to fit precisely into your disc brake system, providing consistent and reliable braking force with every application. The precise engineering also helps reduce brake noise and vibrations, contributing to a smoother and more comfortable driving experience.

Durability is a key consideration when selecting brake pads, and this set offers a guarantee period covering a mileage range of 30,000 to 50,000 kilometers. This impressive lifespan means fewer replacements over time, making it a cost-effective solution for vehicle owners.

The ability to maintain excellent braking performance throughout this mileage range is a testament to the high-quality materials and manufacturing processes used in producing these pads.

When it comes to brake pad type, these pads fall under the category of disc brake pads, specifically designed for disc braking systems that are widely used in modern vehicles. Disc brakes are known for their superior heat dissipation and stopping power compared to drum brakes. These ceramic disc brake pads enhance the system's overall efficiency by providing consistent friction, even under high-stress braking conditions, such as sudden stops or driving in hilly terrain.

Choosing the right brake pad brand is crucial for ensuring safety and performance, and this Disc Brake Pad Set is recognized as one of the best brake pad brands in the industry. The brand's commitment to quality and innovation is reflected in the materials used, the precision manufacturing, and the rigorous testing each pad undergoes before reaching customers. By opting for this set, you are investing in a product that prioritizes your vehicle's braking efficiency and your personal safety.

In summary, the Disc Brake Pad Set with 4 pads offers a perfect blend of high performance, durability, and comfort. Its ceramic composition classifies it among the good ceramic brake pads, known for their quiet operation and minimal brake dust. As an OE replacement, it guarantees a perfect fit and reliable braking power for vehicles equipped with disc brakes. The impressive guarantee period of 30,000 to 50,000 kilometers ensures long-lasting performance, making it a smart choice for drivers seeking dependable and effective brake pads. Backed by one of the best brake pad brands, this set is designed to meet the rigorous demands of everyday driving, providing peace of mind and enhanced control on the road.

**Features:**

- Product Name: Disc Brake Pad Set
- Installation Method: Bolt-On for easy and secure fitting
- Package Contents: 4 Brake Pads included
- Compatibility: Universal fit for most cars and motorcycles
- Brake Type: Designed specifically for disc brakes
- Packing: Customized packaging for protection and convenience
- Made from the best brake pad material to ensure durability and performance
- Features the best ceramic brake pads for superior stopping power
- Engineered as the best ceramic brake pads for reduced noise and dust

**Technical Parameters:**

OE Replacement	Yes
Heat Resistance	Up To 500°C
Interchange Part Number	D1293, D1222
Product Dimensions	8.5 X 6.5 X 0.7 Inches
Brake Type	Disc Brakes
Installation Method	Bolt-On
Manufacturer Part Number	DBP-001
Brake Pad Type	Disc
Number of Pads	4
Guarantee Period	30000-50000 km

**Applications:**

The Herito Disc Brake Pad Set, model number ZK-28001, is designed to provide superior braking performance and reliability for a variety of vehicles. Manufactured in China and certified with ISO 9001 and DOT approval, these disc brake pads guarantee safety and quality

that meet international standards. As OEM brake pads, the Herito DBP-001 ensures perfect fitment and compatibility, making them an excellent replacement option for your vehicle's braking system.

These ceramic brake pads are engineered for durability and efficiency, offering consistent stopping power and reduced noise. Known as some of the best ceramic brake pads on the market, the Herito ZK-28001 provides excellent heat dissipation, minimal brake dust, and longer lifespan, with a guarantee period covering 30,000 to 50,000 kilometers. This makes them ideal for daily commuting, long-distance driving, and even demanding urban traffic conditions where reliable braking is critical.

The Herito Disc Brake Pad Set is perfect for use in various occasions such as city driving, highway cruising, and mountainous terrain navigation. Whether you are driving a family sedan, a light SUV, or a compact car, these brake pads offer smooth and responsive braking performance. Their compatibility with interchange part numbers D1293 and D1222 further broadens their application scope, ensuring that a wide range of vehicles can benefit from Herito's advanced braking technology.

For automotive enthusiasts and everyday drivers alike, installing the Herito DBP-001 ceramic brake pads means enhanced safety and peace of mind. They are especially suitable for scenarios involving frequent stop-and-go traffic, emergency braking situations, and driving in varying weather conditions. By choosing these OEM brake pads, users invest in a product that combines high-quality materials, rigorous manufacturing standards, and proven effectiveness.

In summary, the Herito Disc Brake Pad Set ZK-28001 is a reliable, high-performance solution designed to meet the demands of modern driving environments. Its ceramic composition ensures quieter operation and reduced wear on the brake rotors, making it the best ceramic brake pads choice for anyone seeking durability and safety. Trust Herito's expertise and quality assurance to keep your vehicle's braking system functioning flawlessly across diverse driving occasions and scenarios.

## Customization:

Herito offers product customization services for the Disc Brake Pad Set, model number ZK-28001, made in China. These disc brake pads are designed with a universal fit, compatible with most cars and motorcycles, ensuring versatility and convenience for various vehicle types.

The product dimensions measure 8.5 X 6.5 X 0.7 inches, providing an optimal size for effective braking performance. Our ceramic brake pad sets are engineered to withstand heat resistance up to 500°C, making them ideal for demanding driving conditions.

As one of the best ceramic brake pads available, Herito's disc brake pads feature interchange part numbers D1293 and D1222, allowing easy replacement and compatibility with existing brake systems. Customize your brake pads to meet specific requirements and experience the superior quality and durability that define the best ceramic brake pads on the market.
