Basic Information

- Brand Name: Herito
- Model Number: ZK-10001

Product Specification

- Frictioncoefficient: 0.35
- Number Of Pieces: 4
- Factory No: ZK-27017
- Heat Resistant: Yes
- Guarantee Peroid: 30000-50000km
- Numberofpads: 4
- Fmsi: D1368
- Wear Resistance: High Wear Resistance

Product Description:

The Disc Brake Pad Set, identified by Manufacturer Part Number Herito-001 and Product Code DBPS, is an exceptional choice for anyone looking to upgrade or replace their vehicle's braking system with high-quality components. Manufactured under Factory No: ZK-27017, this set is designed to provide superior performance, durability, and safety on the road. Featuring four brake pads, each with a thickness of 0.5 inches, this set ensures reliable stopping power and consistent brake feel under various driving conditions.

One of the standout features of this Disc Brake Pad Set is its use of advanced ceramic brake pad material. Ceramic brake pads are widely regarded as some of the best ceramic brake pads available on the market today due to their excellent combination of performance and comfort. Unlike traditional brake pads, ceramic brake pads generate less dust, produce less noise, and offer smoother braking, making them an ideal choice for everyday driving as well as more demanding situations.

Each ceramic brake pad in this set is engineered to deliver long-lasting durability and outstanding heat dissipation. This means that even during heavy braking or in high-temperature conditions, the pads maintain their integrity and performance without excessive wear or fading. The ceramic material also contributes to a cleaner wheel environment by reducing brake dust accumulation, which helps keep your wheels looking cleaner for longer periods.

With a thickness of 0.5 inches, the brake pads in this set provide ample material for extended use before replacement becomes necessary. This thickness is optimized to balance effective braking performance with longevity, ensuring that drivers get the maximum value from their purchase. The set includes four pads, enough to service both front or rear wheels of most standard vehicles, offering a complete solution for your braking needs.

Manufactured to strict quality standards at Factory No: ZK-27017, the Disc Brake Pad Set guarantees consistent quality and reliability. The manufacturer part number Herito-001 represents a product line known for its attention to detail and rigorous testing procedures, ensuring that every set of ceramic brake pads meets or exceeds industry expectations. This level of quality assurance makes the set an excellent choice for those who prioritize safety and performance in their vehicle maintenance routine.

Installing this Disc Brake Pad Set not only improves braking efficiency but also enhances overall driving confidence. Ceramic brake pads provide a more responsive braking experience with reduced noise and vibration, contributing to a smoother and quieter ride. This makes them particularly suitable for drivers who seek the best ceramic brake pads that combine performance with comfort.

In summary, the Disc Brake Pad Set with Manufacturer Part Number Herito-001 and Product Code DBPS is a top-tier product designed to meet the demands of modern vehicles. Its 0.5-inch thick ceramic brake pads offer excellent stopping power, durability, and cleanliness, making them some of the best ceramic brake pads available. Whether you are replacing worn-out pads or upgrading your braking system, this ceramic brake pad set provides a reliable, high-performance solution that enhances safety and driving enjoyment.

Features:

- Product Name: Disc Brake Pad Set
- Type: Brake Pad
- Friction Coefficient: 0.35 for optimal braking performance
- Heat Resistant: Yes, suitable for high-temperature conditions
- Product Code: DBPS
- FMSI Number: D1368
- High-quality disc brake pads designed for durability and safety
- Considered among the best ceramic brake pads for smooth and quiet braking
- Provides the reliability and performance expected from good ceramic brake pads

Technical Parameters:

Guarantee Period	30000-50000 km
Width	50 mm
Number of Pieces	4
Friction Coefficient	0.35
Wear Resistance	High Wear Resistance
Factory No	ZK-27017
Number of Pads	4
Type	Brake Pad
Heat Resistant	Yes
Quantity	4 Pieces Per Set

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is designed to offer exceptional braking performance and durability for a wide range of vehicles. Manufactured in China with the factory number ZK-27017, this set includes 4 high-quality ceramic brake pads, each with a thickness of 0.5 inches. As a top-quality brake pad product, Herito-001 is recognized for its reliability and precision, making it an excellent choice for both everyday driving and more demanding braking situations.

These best ceramic brake pads are ideal for various application occasions and scenarios. Whether you are a daily commuter, a weekend

adventurer, or someone who frequently navigates stop-and-go traffic, the Herito ceramic brake pad set ensures smooth, quiet, and efficient braking. The ceramic composition offers superior heat dissipation and minimal dust generation, which keeps your wheels cleaner and your braking consistent even under heavy use.

For automotive enthusiasts and professional mechanics alike, the Herito Disc Brake Pad Set is compatible with a wide range of brake pad tools, simplifying installation and maintenance. Using the right brake pad tool can help ensure the pads are fitted correctly, maximizing their lifespan and performance. This makes the Herito ceramic brake pad set not only a great replacement part but also a practical upgrade when paired with the appropriate brake pad tool.

In urban environments where frequent stops are common, these brake pads perform exceptionally well by providing responsive braking without excessive wear. They are also well-suited for highway driving, offering stable and reliable performance at high speeds. Moreover, the Herito-001 brake pad set is perfect for drivers who prioritize safety and longevity in their vehicle maintenance routine.

In summary, the Herito Disc Brake Pad Set (ZK-10001) is a premium choice for anyone looking to enhance their vehicle's braking system. Its ceramic brake pad composition, combined with the convenience of using a compatible brake pad tool, makes it the best ceramic brake pads option for various driving scenarios, from daily commutes to more demanding road conditions.

Customization:

Herito offers product customization services for the Disc Brake Pad Set, model number ZK-10001. Manufactured in China, this set includes 4 high-quality disc brake pads designed to provide optimal braking performance. As a type of brake pad, these ceramic brake pads are made from the best brake pad material to ensure superior heat resistance and durability. With the product code DBPS and manufacturer part number Herito-001, customers can customize their order to meet specific requirements, ensuring the perfect fit and performance for their vehicle.
