

Easy To Install ceramic brake pads low noise braking solution providing excellent heat dissipation and minimal wear for diverse vehicle models

Our Product Introduction

for more products please visit us on heritobrake.com

Basic Information

- Brand Name: Herito
- Model Number: ZK-10001
- Minimum Order Quantity: 100
- Price: 6
- Packaging Details: export packing
- Delivery Time: 30days
- Payment Terms: T/T

Product Specification

- Durability: High Wear Resistance
- Dimensions: 120mm X 50mm X 15mm
- Thickness: 12 Mm
- Noise Level: Low Noise
- Model: Mazda RX-8
- Upc: 123456789012
- Hardware Included: Yes
- Warranty: 12 Months

Product Description:

Introducing our premium Disc Brake Pad Set, designed to provide exceptional braking performance and reliability for a wide range of vehicles. Engineered with quality and durability in mind, this brake pad set is an ideal choice for drivers seeking safety, comfort, and long-lasting performance on the road. Whether you are replacing worn-out pads or upgrading your braking system, our disc brake pads deliver superior stopping power and smooth braking experience.

One of the standout features of this Disc Brake Pad Set is the use of advanced ceramic materials. These good ceramic brake pads are known for their excellent heat resistance, reduced brake dust, and quieter operation compared to traditional metallic brake pads. The ceramic brake pad composition ensures minimal wear on your rotors, extending the lifespan of both the pads and the rotors, which ultimately saves you money on maintenance and replacement costs.

The brake pads have a thickness of 12 mm, providing a substantial layer of friction material to ensure consistent braking performance throughout their lifespan. This thickness contributes to enhanced durability and effective heat dissipation, which helps prevent brake fade during heavy braking situations or extended downhill drives. With this thickness, the brake pad set maintains optimal performance and safety, giving you confidence every time you hit the brakes.

Our disc brake pad set also comes with all the necessary hardware included, making installation straightforward and hassle-free. The included hardware ensures that the pads fit securely and function correctly within your braking system, reducing the risk of noise and vibration. Whether you are a professional mechanic or a DIY enthusiast, you will appreciate the convenience and reliability of having all components required for a proper brake pad replacement in one package.

We stand behind the quality and reliability of our product by offering a 12-month warranty on the Disc Brake Pad Set. This warranty reflects our commitment to customer satisfaction and confidence in the durability of our brake pads. Should you encounter any issues or defects within the warranty period, our dedicated after service team is ready to assist you promptly. We prioritize your safety and peace of mind, ensuring that your braking system performs at its best long after installation.

These good ceramic brake pads are designed not only to enhance braking efficiency but also to contribute to a cleaner and quieter driving experience. The ceramic formulation produces significantly less brake dust compared to conventional pads, helping to keep your wheels cleaner and reducing the frequency of wheel cleaning. Additionally, the quieter operation minimizes annoying brake squeal, making your daily drives more pleasant and less stressful.

The Disc Brake Pad Set is compatible with a wide range of vehicle makes and models, making it a versatile choice for many drivers. Whether you drive a sedan, SUV, or light truck, these ceramic brake pads deliver reliable stopping power under various driving conditions, including city traffic, highway cruising, and challenging terrains. Their robust design and material quality ensure consistent performance in both wet and dry conditions, enhancing your vehicle's safety in all weather scenarios.

In summary, our Disc Brake Pad Set offers a high-quality, durable, and efficient solution for your braking needs. Featuring good ceramic brake pads with a 12 mm thickness, included hardware for easy installation, and backed by a 12-month warranty with excellent after service support, this product is designed to meet and exceed your expectations. Upgrade your vehicle's braking system today with this reliable ceramic brake pad set and experience improved safety, quieter braking, and longer-lasting performance on every drive.

UPC: 123456789012

Features:

- Product Name: Disc Brake Pad Set
- Includes Hardware: Yes, all necessary hardware included for installation
- Product Dimensions: 8.5 X 6.5 X 0.7 Inches
- Noise Level: Low Noise operation for a quiet driving experience
- Easy To Install: Yes, designed for quick and hassle-free installation
- Braking System Compatibility: TKO braking system
- Material: Made from high-quality ceramic brake pads
- Performance: Considered some of the best ceramic brake pads for superior stopping power
- Durability: Good ceramic brake pads offering long-lasting performance and wear resistance

Technical Parameters:

Thickness	12 Mm
Product Dimensions	8.5 X 6.5 X 0.7 Inches
Friction Coefficient	0.35
Package Quantity	1 Set
Dimensions	120mm X 50mm X 15mm
Type	Parking Brake
Warranty	12 Months
Hardware Included	Yes
UPC	123456789012
Model	Mazda RX-8

Experience superior stopping power with these disc brake pads, designed as the best ceramic brake pads to ensure durability and performance. Our ceramic brake pads provide excellent friction and long-lasting reliability for your vehicle.

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is designed to offer superior performance and reliability for a wide range of vehicles. Manufactured in China, this parking brake type set is crafted to meet high standards with precise dimensions of 8.5 X 6.5 X 0.7 inches and detailed dimensions of 120mm X 50mm X 15mm, making it an ideal fit for many braking systems. Whether you are a professional mechanic or a vehicle enthusiast, these ceramic brake pads are engineered to provide excellent stopping power and durability.

One of the most common occasions to use the Herito disc brake pads is during routine vehicle maintenance and brake system upgrades. Drivers who prioritize safety and performance often choose the best ceramic brake pads like the Herito ZK-10001 to ensure consistent braking efficiency in daily commuting, long-distance travel, or city driving. The ceramic brake pad material offers quieter operation and less dust generation compared to traditional brake pads, making them perfect for urban environments where clean wheels and minimal noise are desired.

These brake pads are also highly suitable for scenarios involving heavy-duty use, such as towing or driving in hilly or mountainous regions where reliable braking is critical. The Herito ceramic brake pads maintain their performance under high temperatures and provide a smoother braking experience, which is essential for emergency stops and parking maneuvers. Additionally, the 12-month warranty ensures peace of mind, making these pads an excellent investment for anyone looking for quality and longevity in their brake components.

For automotive workshops and service centers, offering the Herito Disc Brake Pad Set means providing customers with one of the best ceramic brake pads available on the market. Their precise fit and superior material quality reduce installation time and improve customer satisfaction. Whether replacing worn-out pads or upgrading from standard brake pads, these ceramic brake pads deliver enhanced braking response and safety for a wide range of passenger cars.

In summary, the Herito ZK-10001 Disc Brake Pad Set is perfect for everyday driving, heavy-duty applications, and professional automotive services. Its superior ceramic composition makes it one of the best ceramic brake pads for drivers seeking quiet, durable, and reliable braking performance. With its origin in China, detailed dimensions, and a solid 12-month warranty, it stands out as a top choice for those in need of a quality parking brake solution.

Customization:

Herito presents the Disc Brake Pad Set, model number ZK-10001, made in China with the highest quality standards. Designed for the TKO braking system, these ceramic brake pads use the best brake pad material to ensure superior performance and durability. With a thickness of 12 mm, they provide excellent braking power while maintaining a low noise level for a comfortable driving experience. Easy to install and backed by reliable after service, this set is the perfect choice for those seeking the best brake pad material combined with convenience and quality.

Support and Services:

Our Disc Brake Pad Set is designed to provide superior stopping power and long-lasting performance for a wide range of vehicles. Manufactured with high-quality materials, these brake pads ensure reliable braking under various driving conditions.

For installation, please refer to the included instruction manual to ensure proper fitment and optimal performance. It is recommended to inspect the brake rotors and replace them if necessary to maintain effective braking.

Regular maintenance and inspection of your brake system are essential for safety. Replace brake pads promptly when the friction material wears down to prevent damage to the rotors.

If you experience any issues such as noise, vibration, or reduced braking efficiency, please check the installation and consult with a professional mechanic if necessary.

We offer comprehensive technical support to assist with any questions regarding compatibility, installation, or performance of the Disc Brake Pad Set. Our support team is committed to ensuring your satisfaction and safety on the road.

For warranty information and service policies related to the Disc Brake Pad Set, please refer to the product documentation or visit our official website.
