

Easy To Install Disc Brake Pad Set Suitable for TKO Braking System Offering Low Noise and Consistent Braking Performance

Our Product Introduction

for more products please visit us on heritobrake.com

Basic Information

- Brand Name: Herito
- Model Number: ZK-10001
- Minimum Order Quantity: 100
- Price: 6
- Packaging Details: export packing
- Delivery Time: 30days
- Payment Terms: T/T
- Supply Ability: 4 million

Product Specification

- Package Quantity: 1 Set
- After Service: Yes
- Friction Coefficient: 0.35
- Upc: 123456789012
- Easy To Install: Yes
- Durability: High Wear Resistance
- Type: Parking Brake
- Model: Mazda RX-8

Product Description

Product Description:

The Disc Brake Pad Set is an essential component for any vehicle's braking system, designed to deliver reliable and consistent stopping power. Engineered with precision, this set of ceramic brake pads is tailored to provide superior performance, durability, and safety. Whether you are upgrading your current brakes or replacing worn-out pads, this product offers an excellent balance of quality and value. One of the standout features of this Disc Brake Pad Set is its compatibility with the TKO braking system. The TKO braking system is known for its efficiency and responsiveness, and these ceramic brake pads are specifically designed to work seamlessly within this system, ensuring optimal braking performance under various driving conditions. This compatibility means you can expect smooth and controlled stops, enhancing both your vehicle's safety and your driving confidence.

Measuring 8.5 X 6.5 X 0.7 inches in product dimensions, or 120mm X 50mm X 15mm for the brake pads themselves, this set fits perfectly into a wide range of vehicle models. The precise dimensions ensure that installation is straightforward, minimizing the time and effort required to replace your brake pads. Additionally, the compact size of these ceramic brake pads contributes to reduced overall weight, which can positively impact your vehicle's fuel efficiency and handling.

The ceramic brake pads in this set are crafted from high-quality materials that offer excellent heat dissipation and minimal wear. Ceramic brake pads are favored by many drivers because they produce less dust compared to traditional metallic pads, helping to keep your wheels cleaner for longer periods. Moreover, ceramic brake pads tend to be quieter, reducing the annoying squealing noises often associated with braking. This makes for a more pleasant driving experience, especially in urban environments where frequent braking is common.

Each package contains one complete set of disc brake pads, providing everything needed for a full brake pad replacement on one axle. This makes it a convenient and cost-effective solution for maintenance and repair. The set's packaging is designed to protect the pads during shipping, ensuring that you receive them in perfect condition and ready for installation.

In summary, this Disc Brake Pad Set with ceramic brake pads is an excellent choice for anyone seeking reliable and high-performing brake components. Its compatibility with the TKO braking system, precise dimensions, and superior ceramic material construction combine to offer enhanced braking efficiency, longevity, and comfort. Whether you're a casual driver or an automotive enthusiast, these ceramic brake pads will meet your needs by delivering consistent stopping power, reduced noise, and less brake dust.

Don't compromise on safety or performance – invest in this Disc Brake Pad Set with ceramic brake pads and experience the difference that quality braking components can make. With UPC 123456789012, you can easily identify and purchase this product, ensuring you get the exact set designed to keep your vehicle running safely and smoothly.

Features:

Product Name: Disc Brake Pad Set
Hardware Included: Yes
Friction Coefficient: 0.35 for optimal stopping power
Compatible with TKO Braking System
Durable ceramic brake pads for long-lasting performance
Recognized as the best brake pad brand in the market
Offers the best ceramic brake pads for smooth and quiet braking
12 Months Warranty for peace of mind
UPC: 123456789012

Technical Parameters:

Hardware Included	Yes
Warranty	12 Months
Braking System	TKO
Model	Mazda RX-8
Noise Level	Low Noise
Product Dimensions	8.5 X 6.5 X 0.7 Inches
Thickness	12 Mm
After Service	Yes
Package Quantity	1 Set
Dimensions	120mm X 50mm X 15mm

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is an exceptional choice for drivers seeking the best ceramic brake pads for their Mazda RX-8. Manufactured in China with precision and high-quality materials, these brake pads are designed to deliver superior performance and reliability. With a thickness of 12 mm, these ceramic brake pads provide long-lasting durability and high wear resistance, ensuring that you can enjoy safe and efficient braking over an extended period.

These brake pads are specifically engineered to work seamlessly with the TKO braking system, offering a smooth and responsive braking experience. One of the standout features of the Herito ZK-10001 brake pad set is its low noise operation. Unlike many traditional brake pads that can produce annoying squeals and grinding sounds, these ceramic brake pads guarantee a quiet and comfortable ride, making them ideal for daily commuting as well as spirited driving sessions.

The versatility of the Herito Disc Brake Pad Set makes it suitable for a wide range of application occasions and scenarios. Whether you are driving in urban environments with frequent stops, cruising on highways, or tackling winding roads where precise braking control is crucial, these ceramic brake pads perform reliably under various conditions. Their high wear resistance also makes them an excellent choice for drivers who demand durability and consistent performance, reducing the need for frequent replacements.

For Mazda RX-8 owners who participate in motorsport events or enjoy weekend track days, the Herito ZK-10001 model provides the confidence and safety needed during high-speed braking. The optimized friction material ensures effective heat dissipation, preventing brake fade and maintaining consistent braking power even during intense driving scenarios. Additionally, the low noise level means less distraction, allowing you to focus fully on the road or track.

In everyday practical use, whether it's running errands around town, commuting to work, or embarking on long road trips, these best ceramic brake pads from Herito offer peace of mind through dependable stopping power and reduced wear on your braking system components. The combination of quality manufacturing, compatibility with the TKO system, and the specific fit for the Mazda RX-8 makes the Herito Disc Brake Pad Set a smart investment for anyone looking to upgrade their braking system with some of the best ceramic brake pads available on the market today.

Customization:

Herito offers product customization services for the Disc Brake Pad Set, model number ZK-10001, specifically designed for the Mazda RX-8. As the best brake pad brand, we provide OEM brake pads made from the best brake pad material to ensure optimal performance and durability. Our parking brake pads have a thickness of 12 mm and product dimensions of 8.5 x 6.5 x 0.7 inches. Manufactured in China, each set includes all necessary hardware for easy installation. Customize your brake pads with Herito for reliable stopping power and superior quality.

Support and Services:

Our Disc Brake Pad Set is designed to provide reliable and efficient braking performance for a variety of vehicles. To ensure optimal functionality and safety, please follow the installation guidelines carefully and use compatible hardware.

For best results, inspect the brake pads regularly for wear and replace them promptly when the friction material reaches the minimum thickness recommended by the manufacturer. Avoid exposure to oil, grease, or other contaminants that may reduce braking efficiency.

If you experience any unusual noise, vibration, or reduced braking performance, check the installation and condition of the brake pads and related components. It is advisable to have the brake system inspected by a qualified technician to diagnose and address any issues.

We recommend using only genuine replacement parts and adhering to your vehicle manufacturer's maintenance schedule to maintain optimal braking performance and safety.

For further assistance or technical inquiries regarding the Disc Brake Pad Set, please refer to the product manual or visit our support website for detailed troubleshooting guides and FAQs.
