Basic Information

- Brand Name: Herito
- Model Number: ZK-10001
- Minimum Order Quantity: 100
- Price: 6
- Packaging Details: export packing
- Delivery Time: 30days
- Payment Terms: T/T
- Supply Ability: 4 million

Product Specification

- Braking System: TKO
- Package Quantity: 1 Set
- Dimensions: 120mm X 50mm X 15mm
- Model: Mazda RX-8
- Warranty: 12 Months
- Friction Coefficient: 0.35
- Hardware Included: Yes
- Easy To Install: Yes

Product Description:

The Disc Brake Pad Set designed specifically for the Mazda RX-8 is an essential component for maintaining optimal braking performance and safety. This product comes as a complete package quantity of 1 set, providing everything you need to replace your vehicle's parking brake pads efficiently and effectively. Engineered with precision and durability in mind, these disc brake pads ensure reliable stopping power and a smooth braking experience under various driving conditions.

One of the standout features of this Disc Brake Pad Set is its ease of installation. Whether you are a professional mechanic or a car enthusiast performing a DIY maintenance task, you will find that these brake pads are straightforward to install, saving you time and effort. The design is tailored to fit the Mazda RX-8 model perfectly, ensuring a snug and secure fit that enhances braking performance without any modifications.

These disc brake pads measure 120mm in length, 50mm in width, and 15mm in thickness, making them the ideal size for the parking brake system of the Mazda RX-8. The precise dimensions contribute to consistent contact with the rotor, which is crucial for effective braking and minimizing wear and tear on both the pads and the rotors. This accurate sizing helps maintain the integrity of your vehicle's braking system and promotes longer service life.

When it comes to quality, these brake pads are crafted from high-grade ceramic materials, which ranks them among the best ceramic brake pads available on the market. Ceramic brake pads are renowned for their excellent heat resistance, low dust production, and quieter operation compared to traditional metallic brake pads. The ceramic compound used in this set ensures that you get good ceramic brake pads that perform exceptionally well by providing smooth, consistent stopping power while reducing noise and brake dust accumulation.

Moreover, the use of ceramic material means these disc brake pads offer superior durability and longevity. They are less prone to wear and can withstand the high temperatures generated during braking, making them a cost-effective choice in the long run. Their ability to maintain performance under various driving conditions, from city commuting to spirited driving, makes them a versatile and reliable option for Mazda RX-8 owners.

In addition to performance and durability, these brake pads contribute to a cleaner and safer driving experience. The reduced brake dust means your wheels stay cleaner, minimizing the need for frequent cleaning and maintenance. Additionally, the quieter braking operation reduces noise pollution, enhancing overall driving comfort.

Choosing this Disc Brake Pad Set for your Mazda RX-8 means investing in a product that combines precision engineering, high-quality materials, and user-friendly installation. Whether you are replacing worn-out parking brake pads or upgrading your braking system, this set offers an excellent balance of performance, reliability, and value. With its perfect fit, optimal dimensions, and ceramic composition, it stands out as one of the best ceramic brake pads tailored for your vehicle's needs.

In summary, this Disc Brake Pad Set is an ideal solution for anyone seeking good ceramic brake pads that deliver exceptional braking performance, durability, and ease of installation. Designed specifically for the parking brake system of the Mazda RX-8, these disc brake pads provide a precise fit with dimensions of 120mm by 50mm by 15mm. They feature the advantages of ceramic technology, including quieter operation, less brake dust, and enhanced longevity. By choosing this product, you ensure that your vehicle maintains reliable stopping power and safety, making it a smart and effective choice for your braking needs.

Features:

- Product Name: Disc Brake Pad Set
- Durability: High Wear Resistance for long-lasting performance
- After Service: Available to ensure customer satisfaction
- Package Quantity: 1 Set
- Thickness: 12 Mm for optimal braking efficiency
- UPC: 123456789012
- Recognized as one of the best brake pad brand options on the market
- Made with the best ceramic brake pads technology for superior stopping power
- Designed specifically as premium disc brake pads for enhanced safety and reliability

Technical Parameters:

Braking System	TKO
Friction Coefficient	0.35
Noise Level	Low Noise
UPC	123456789012
Warranty	12 Months
Package Quantity	1 Set
Dimensions	120mm X 50mm X 15mm
Type	Parking Brake
Model	Mazda RX-8
Product Dimensions	8.5 X 6.5 X 0.7 Inches

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is designed to deliver superior braking performance for a wide range of vehicles. Originating from China and equipped with the reliable TKO braking system, these disc brake pads are engineered to provide enhanced safety and control on the road. With a thickness of 12 mm, these pads ensure long-lasting durability and consistent performance, making them an excellent choice for drivers seeking the best ceramic brake pads available in the market.

These disc brake pads are perfect for various application occasions and scenarios. Whether you are commuting daily in urban traffic, embarking on long highway journeys, or navigating challenging terrains, the Herito ZK-10001 brake pads offer dependable stopping power. Their ceramic composition not only reduces brake dust but also minimizes noise, ensuring a quieter and cleaner driving experience. This makes them ideal for city driving where frequent braking is common, as well as for highway driving where smooth and reliable braking is essential.

Additionally, the Herito disc brake pads are well-suited for both passenger cars and light trucks that utilize the TKO braking system. Their easy-to-install design, complete with all necessary hardware included, allows for quick and hassle-free replacement, saving time and effort for both professional mechanics and DIY enthusiasts. The 12-month warranty further assures users of the product's quality and reliability, providing peace of mind with every stop.

In performance-demanding scenarios such as mountainous routes or stop-and-go traffic conditions, the Herito ZK-10001 brake pads excel by maintaining consistent friction levels and resisting wear and tear. They are truly among the best ceramic brake pads for drivers who prioritize safety, durability, and comfort. Whether upgrading your vehicle's existing braking system or replacing worn-out pads, these disc brake pads stand out as a premium choice for improved braking efficiency and vehicle control.

In summary, the Herito Disc Brake Pad Set is a versatile and high-quality product that meets the needs of various driving conditions and vehicle types. Its blend of advanced ceramic materials, ease of installation, and robust warranty makes it a top contender for the best ceramic brake pads on the market today.

Customization:

Herito offers customized product services for the Disc Brake Pad Set, model number ZK-10001, made in China. This set includes 1 package with dimensions of 120mm X 50mm X 15mm and overall product dimensions of 8.5 X 6.5 X 0.7 inches. Designed for the TKO braking system, our ceramic brake pads provide excellent performance and durability. We specialize in OEM brake pads, ensuring that each ceramic brake pad is tailored to meet your specific requirements. Our disc brake pads are easy to install, making them a convenient choice for both professional mechanics and DIY enthusiasts.

Support and Services:

Our Disc Brake Pad Set is designed to provide reliable and efficient braking performance for a wide range of vehicles. Engineered with high-quality materials, these brake pads ensure long-lasting durability and optimal stopping power under various driving conditions.

For installation, please ensure that the brake system is clean and free from debris. It is recommended to replace brake pads in pairs to maintain balanced braking performance. Always follow the vehicle manufacturer's specifications and guidelines during installation.

Regular maintenance checks are advised to monitor the condition of the brake pads and other brake system components. Signs of wear such as reduced braking efficiency, unusual noises, or vibrations should prompt immediate inspection or replacement.

Our technical support team is available to assist with any questions related to product compatibility, installation procedures, and troubleshooting. We are committed to providing exceptional service to ensure your safety and satisfaction with our Disc Brake Pad Set.
