

Easy To Install Best Ceramic Brake Pads Engineered For Minimal Dust And Noise Superior Stopping Power And After Service

Our Product Introduction

for more products please visit us on heritobrake.com

Basic Information

- Brand Name: Herito
- Model Number: ZK-10001

Product Specification

- Easy To Install: Yes
- Noise Level: Low Noise
- Warranty: 12 Months
- Braking System: TKO
- Thickness: 12 Mm
- Friction Coefficient: 0.35
- Model: Mazda RX-8
- Hardware Included: Yes

Product Description

Product Description:

The Disc Brake Pad Set for the Mazda RX-8 is an exceptional choice for those seeking superior braking performance combined with reliability and durability. Engineered to meet and exceed OEM brake pads standards, this set offers an ideal balance of safety, comfort, and long-lasting wear. Whether you are a daily commuter or a driving enthusiast, these brake pads ensure your vehicle responds precisely and smoothly under various driving conditions.

One of the standout features of this Disc Brake Pad Set is its low noise level. Designed with advanced materials and innovative manufacturing technology, these pads operate quietly, minimizing the unpleasant squeals and screeches commonly experienced with inferior brake pads. This low noise characteristic not only enhances your driving comfort but also reflects the quality craftsmanship that goes into producing the best brake pad brand in the market.

With a friction coefficient of 0.35, this brake pad set delivers excellent stopping power without compromising on smoothness. The friction coefficient is a critical measure of braking efficiency, and a value of 0.35 ensures that the pads provide consistent and reliable performance, enabling you to stop confidently even in demanding situations. This level of friction also contributes to better control and shorter stopping distances, making your driving experience safer overall.

Measuring 8.5 X 6.5 X 0.7 inches, these brake pads are precisely designed to fit the Mazda RX-8, ensuring a perfect fit and straightforward installation. The dimensions are optimized for maximum contact with the brake rotor, enhancing heat dissipation and reducing wear. This attention to detail means you get a product that not only fits perfectly but also performs exceptionally well over the long term.

This package contains 1 set of disc brake pads, providing all the components needed for a complete replacement on your vehicle's front or rear brakes. The comprehensive package ensures you have everything necessary for a hassle-free upgrade, making it an excellent value for your investment. By choosing this brake pad set, you are equipping your Mazda RX-8 with some of the best ceramic brake pads available, known for their superior heat resistance, reduced brake dust production, and extended lifespan compared to traditional organic or semi-metallic pads.

As a proud offering from the best brake pad brand, this Disc Brake Pad Set combines the benefits of OEM brake pads with the enhanced performance characteristics of premium ceramic materials. This combination results in pads that not only meet factory specifications but also improve upon them in terms of noise reduction, braking smoothness, and durability. Whether you are replacing worn-out pads or upgrading your braking system, this product guarantees a noticeable improvement in overall braking quality.

In conclusion, the Disc Brake Pad Set for the Mazda RX-8 is an outstanding choice for anyone seeking reliable, quiet, and efficient braking performance. With its low noise operation, precise fitment, and excellent friction coefficient of 0.35, it stands out as one of the best ceramic brake pads on the market. The package quantity of 1 set ensures you have everything needed for a seamless installation, while its status as an OEM-equivalent product assures compatibility and quality. Trust in this brake pad set to deliver the safety and performance your Mazda RX-8 deserves.

Features:

Product Name: Disc Brake Pad Set

Package Quantity: 1 Set

Braking System: TKO

Hardware Included: Yes

Noise Level: Low Noise for a quiet ride

Easy To Install: Yes, designed for quick and hassle-free installation

Made with the best ceramic brake pads material for superior performance

Provides excellent stopping power with the best brake pad material available

Experience the benefits of the best ceramic brake pads for durability and reliability

Technical Parameters:

Dimensions	120mm X 50mm X 15mm
Model	Mazda RX-8
Warranty	12 Months
Package Quantity	1 Set
Type	Parking Brake
Friction Coefficient	0.35
UPC	123456789012
After Service	Yes
Hardware Included	Yes
Product Dimensions	8.5 X 6.5 X 0.7 Inches

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is designed to deliver superior performance and reliability in a variety of application occasions and scenarios. Manufactured in China with the highest quality standards, these OEM brake pads are engineered to meet the demands of both everyday driving and more intensive braking situations. Whether you are commuting through urban traffic, embarking on a long highway journey, or navigating steep downhill roads, the Herito disc brake pads provide consistent stopping power and enhanced safety.

One of the key application scenarios for the Herito disc brake pads is in passenger vehicles that require a reliable parking brake system. These pads are specifically designed as parking brake components, ensuring your vehicle stays securely in place when parked on inclines or uneven surfaces. Their robust design and best brake pad material composition enable them to withstand frequent use without compromising performance, making them ideal for both personal and commercial vehicles.

The compact product dimensions of 8.5 x 6.5 x 0.7 inches make the Herito disc brake pad set easy to install and compatible with a wide range of vehicle models. This versatility allows mechanics and vehicle owners to use these OEM brake pads as an effective replacement part, maintaining the original braking efficiency of the vehicle. Furthermore, the product comes with a 12-month warranty and after-service support, providing peace of mind and assurance of long-term durability.

In addition to regular road use, these disc brake pads excel in scenarios requiring reliable and stable braking performance under heavy load or challenging weather conditions. Their advanced material composition ensures minimal wear and tear, reduced noise, and excellent heat dissipation, making them one of the best brake pad materials available in the market today. Whether in stop-and-go city traffic, mountainous terrain, or during emergency braking, the Herito ZK-10001 model delivers optimal braking response. In summary, the Herito disc brake pad set is an excellent choice for any driver seeking high-quality, durable, and efficient parking brake pads. Its design caters to diverse driving needs, backed by a strong warranty and comprehensive after-service support, ensuring your vehicle's braking system remains in top condition at all times.

Customization:

Herito offers product customization services for the Disc Brake Pad Set, model number ZK-10001, designed to meet your specific needs. Manufactured in China, this set includes 1 set of high-quality disc brake pads featuring a friction coefficient of 0.35, optimized for the TKO braking system and specialized as parking brake pads. We use the best brake pad material to ensure superior performance and durability, making them among the best ceramic brake pads available on the market. Our customization options allow you to tailor the product to your exact requirements, and we provide comprehensive after-service support to guarantee your satisfaction and safety.

Support and Services:

Our Disc Brake Pad Set is engineered to deliver superior stopping power and durability for a wide range of vehicles. For optimal performance, ensure that the brake pads are installed by a qualified technician following the manufacturer's guidelines.

Regular maintenance checks are recommended to monitor the condition of the brake pads and the overall braking system. Replace the brake pads promptly if you notice any signs of excessive wear, noise, or reduced braking efficiency.

To extend the life of your Disc Brake Pad Set, avoid aggressive braking whenever possible and keep the brake components clean and free of debris. Use only compatible brake fluids and components as specified in your vehicle's service manual.

If you experience any issues with the brake pads, such as unusual noises, vibrations, or decreased braking performance, discontinue use immediately and consult a professional mechanic for inspection and repair.

We are committed to providing high-quality products and support. Please refer to the product manual for detailed installation instructions, safety precautions, and maintenance tips to ensure the best results from your Disc Brake Pad Set.
