

## ZK-27013 Disc Brake Pad Set Ceramic Infused Friction Material Approximately 1.2 Kg Per Set Durable Replacement Components

Our Product Introduction

for more products please visit us on [heritobrake.com](http://heritobrake.com)

### Basic Information

- Brand Name: Herito
- Model Number: ZK-10001

### Product Specification

- Package Contents: 4 Brake Pads
- Color: Black
- Thickness: 0.5 Inches
- Weight: Approximately 1.2 Kg Per Set
- Guarantee Peroid: 30000-50000km
- Installation: Easy To Install
- Product Dimensions: 8.5 X 6.5 X 0.7 Inches
- Productname: Disc Brake Pad Set

Product Description:

The Disc Brake Pad Set is an essential upgrade for your vehicle's braking system, offering superior stopping power and enhanced safety. Designed with precision and durability in mind, this set of ceramic brake pads delivers excellent performance under various driving conditions. Whether you are commuting in the city or embarking on a long road trip, these brake pads ensure smooth and reliable braking every time you press the pedal.

One of the standout features of this disc brake pad set is its color – a sleek and classic black finish that not only looks great but also helps in resisting heat and wear during intense braking sessions. The black ceramic brake pads are engineered to minimize dust and noise, providing a cleaner and quieter driving experience compared to traditional brake pads. This makes them an excellent choice for drivers seeking a balance of performance and comfort.

The product dimensions measure 8.5 X 6.5 X 0.7 inches, making this set compact yet robust enough to fit most compatible vehicles. The carefully crafted size ensures an easy fit without compromising on braking efficiency. Whether you are a professional mechanic or a car enthusiast who enjoys DIY maintenance, you will appreciate the thoughtful design that goes into these ceramic brake pads.

Installation is remarkably straightforward with this disc brake pad set. The package contents include 4 brake pads, enough to replace the pads on either the front or rear wheels of your vehicle. Each pad is designed for easy installation, allowing you to quickly upgrade your braking system without the need for specialized tools or extensive mechanical knowledge. The easy-to-install feature makes these ceramic brake pads accessible to a wide range of users, from beginners to experts.

When it comes to quality, these ceramic brake pads rank among the best ceramic brake pads available on the market today. They are manufactured using high-quality materials that provide excellent heat dissipation, reduced brake fade, and superior longevity. The ceramic brake pad material also ensures minimal rotor wear, helping to extend the life of your braking components and save you money on maintenance in the long run.

Choosing this disc brake pad set means opting for a product that emphasizes safety, efficiency, and convenience. The ceramic brake pads are designed to perform well in both dry and wet conditions, offering consistent braking power that you can rely on regardless of the weather. This makes them an ideal choice for drivers who prioritize safety without compromising on performance.

In summary, this black ceramic brake pad set is a high-quality, easy-to-install solution that enhances your vehicle's braking capabilities. With dimensions of 8.5 X 6.5 X 0.7 inches and a package containing four brake pads, it is perfectly suited for a smooth and hassle-free installation process. Whether you are upgrading your current pads or replacing worn-out ones, these ceramic brake pads provide the best combination of durability, noise reduction, and braking performance. Invest in the best ceramic brake pads today and experience a safer, quieter, and more responsive driving experience.

Features:

- Product Name: Disc Brake Pad Set
- Heat Dissipation: Excellent Heat Dissipation for enhanced performance
- Color: Black
- Brake Pad Type: Disc
- Thickness: 0.5 Inches
- Factory No: ZK-27013
- Includes a reliable brake pad tool for easy installation
- Made from the best brake pad material ensuring durability and safety
- Features good ceramic brake pads for quiet and efficient braking

Technical Parameters:

|                    |                                 |

| Color              | Black                           |
| Hardware Included  | Yes                             |

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is designed to provide superior braking performance in a wide variety of application occasions and scenarios. Manufactured in China with the highest standards, these brake pads incorporate a ceramic infused friction material, recognized as the best brake pad material for delivering quiet, smooth, and efficient braking. Whether you are driving in urban environments, on highways, or tackling challenging terrains, the Herito brake pads ensure reliable stopping power and enhanced safety.

Ideal for daily commuting, long-distance travel, and even spirited driving, the Herito disc brake pads stand out due to their excellent heat dissipation properties. This feature is crucial during heavy braking or in situations where prolonged stopping power is required, such as mountainous descents or stop-and-go traffic. The ability to dissipate heat effectively helps prevent brake fade, ensuring consistent performance and prolonging the lifespan of the pads. With a guarantee period covering 30,000 to 50,000 kilometers, users can trust in the durability and resilience of these premium brake pads.

The Herito ZK-10001 model is an excellent replacement option for those seeking OEM brake pads that match or exceed factory specifications. Installation is straightforward and easy to install, making it suitable for both professional mechanics and DIY enthusiasts. Whether you are upgrading your vehicle's braking system or replacing worn-out components, these pads deliver OEM-level quality and performance.

Best ceramic brake pads like the Herito ZK-10001 are perfect for drivers who demand the best in braking technology without compromising on noise reduction or dust generation. The ceramic infused friction material ensures quieter operation and minimal brake dust compared to traditional organic or semi-metallic pads. This makes them a versatile choice for various vehicles, including passenger cars, SUVs, and light trucks, across different driving conditions and climates.

In summary, the Herito Disc Brake Pad Set is suitable for everyday driving, high-performance scenarios, and demanding road conditions. Its combination of the best brake pad material, excellent heat dissipation, OEM compatibility, and easy installation makes it a reliable and efficient choice for ensuring your vehicle's braking system operates at its optimum level.

## Customization:

Herito offers product customization services for the Disc Brake Pad Set, model number ZK-10001. Manufactured in China, these OEM brake pads feature ceramic infused friction material, providing superior performance and durability. The set includes 4 ceramic brake pads designed specifically for disc brake systems. With a thickness of 0.5 inches, these ceramic brake pads ensure optimal braking efficiency and safety. Additionally, the brake pads are easy to install, making them an ideal choice for both professional mechanics and DIY enthusiasts. Customize your order to meet your specific requirements and experience the high quality of Herito ceramic brake pads.

## Support and Services:

Our Disc Brake Pad Set is designed to deliver reliable stopping power and long-lasting performance for a wide range of vehicles. For optimal results, ensure proper installation by following the included instructions carefully. Regular inspection and maintenance of your brake system are recommended to maintain safety and effectiveness. If you experience any unusual noises, vibrations, or reduced braking efficiency, please check the brake pads and related components immediately. Replacement intervals may vary depending on driving conditions and habits. For any technical support or further assistance regarding installation, maintenance, or product compatibility, please refer to the product manual or visit our official support website.
