Basic Information

- Brand Name: Herito
- Model Number: ZK-10001

Product Specification

- Productname: Disc Brake Pad Set
- Weight: Approximately 1.2 Kg Per Set
- Guarantee Peroid: 30000-50000km
- Easy To Install: Yes
- Color: Black
- Package Contents: 4 Brake Pads
- Product Dimensions: 8.5 X 6.5 X 0.7 Inches
- Installation: Easy To Install

Product Description

Product Description:

The Disc Brake Pad Set is an exceptional choice for anyone seeking reliable and high-performance braking components for their vehicle. Engineered with precision and crafted from premium materials, this set offers an outstanding combination of durability, efficiency, and ease of use. Whether you are a professional mechanic or a car enthusiast looking to upgrade your braking system, these brake pads stand out as one of the best brake pad brand options available on the market today.

One of the most notable features of this Disc Brake Pad Set is its ceramic infused friction material. Ceramic brake pads are renowned for their superior performance characteristics, and this product maximizes those benefits. The ceramic infusion not only ensures a smooth and quiet braking experience but also contributes to reduced brake dust, which helps keep your wheels cleaner for longer periods. This advanced friction material provides excellent stopping power, making it ideal for both everyday driving and more demanding conditions. In addition to performance, safety and reliability are paramount when it comes to brake components. This Disc Brake Pad Set excels in these areas thanks to its excellent heat dissipation capabilities. Effective heat dissipation is crucial in preventing brake fade, a condition where the brakes lose effectiveness due to excessive heat buildup. By efficiently dispersing heat, these brake pads maintain consistent performance even during prolonged or aggressive braking, ensuring that your vehicle stops promptly and safely every time. Installation is a breeze with this brake pad set, designed to be easy to install for both professionals and do-it-yourself enthusiasts. The package includes all necessary components and is compatible with a wide range of vehicle models, allowing you to quickly replace worn-out pads without the need for specialized brake pad tools. This user-friendly design saves time and effort, making it an excellent choice for those who prefer to handle maintenance themselves without compromising on quality or safety.

The Disc Brake Pad Set comes in a sleek black color, adding a subtle yet stylish touch to your vehicle's braking system. Beyond aesthetics, the black finish also provides added protection against corrosion and wear, extending the lifespan of the pads. Each set weighs approximately 1.2 kilograms, a balanced weight that ensures durability without adding unnecessary bulk to your vehicle's braking components.

Choosing the right brake pads is crucial for maintaining optimal vehicle performance and safety. This Disc Brake Pad Set, featuring ceramic infused friction material and excellent heat dissipation, represents the perfect blend of advanced technology and practical design. It is widely recognized as one of the best brake pad brand offerings, trusted by both professionals and everyday drivers alike.

Whether upgrading your current brake system or performing routine maintenance, this set delivers unmatched reliability, ease of installation, and superior braking performance. With its ceramic brake pads, efficient heat management, and user-friendly installation process, you can be confident that your vehicle's braking system will perform at its best under all driving conditions. Invest in this Disc Brake Pad Set today and experience the difference that quality and innovation can make in your driving safety and comfort.

Features:

Product Name: Disc Brake Pad Set

Includes hardware for easy installation

Weight: Approximately 1.2 Kg per set

Dimensions: 8.5 x 6.5 x 0.7 inches

Comes with a 12 months manufacturer warranty

High-quality OEM brake pads for reliable performance

Made from the best ceramic brake pads material for durability and reduced noise

Designed to deliver the best ceramic brake pads experience for enhanced braking efficiency

Technical Parameters:

Hardware Included	Yes
Thickness	0.5 Inches
Factory No	ZK-27013
Color	Black
Package Contents	4 Brake Pads
Brake Pad Type	Disc
Weight	Approximately 1.2 Kg Per Set
Guarantee Period	30000-50000km
Product Dimensions	8.5 X 6.5 X 0.7 Inches
Easy To Install	Yes

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is designed to deliver exceptional performance and reliability in various driving conditions. Manufactured in China with high-quality materials, these brake pads are crafted using the best brake pad material to ensure superior friction, durability, and heat resistance. This makes them an ideal choice for drivers seeking optimal braking efficiency and safety for their vehicles.

These OEM brake pads are perfect for those who want to maintain the original equipment manufacturer standards without compromising on quality. Whether you are replacing worn-out brake pads or upgrading your braking system, the Herito ZK-10001 set provides a

seamless fit and consistent performance. The package includes 4 brake pads with a thickness of 0.5 inches, ensuring long-lasting use and reliable stopping power.

In terms of application occasions and scenarios, the Herito Disc Brake Pad Set is versatile and suitable for a wide range of vehicles, including passenger cars, SUVs, and light trucks. It is especially useful for daily commuting, long-distance travel, and even more demanding driving situations like mountain roads or heavy traffic, where reliable braking is crucial. The disc brake pad type ensures efficient heat dissipation and reduced brake fade, enhancing overall safety.

Installation and maintenance are made easier when used alongside the proper brake pad tool, which helps to ensure precise fitting and prolongs the lifespan of the brake pads. This set weighs approximately 1.2 kg per set, making it manageable for professional mechanics and DIY enthusiasts alike. Furthermore, each purchase comes with a 12 months manufacturer warranty, offering peace of mind and assurance of product quality.

Whether you are a professional mechanic or a car owner looking to upgrade your braking system, the Herito Disc Brake Pad Set ZK-10001 is an excellent choice. Its combination of best brake pad material, OEM quality, and practical design makes it suitable for various driving conditions and ensures your vehicle's braking system performs at its best every time.

Customization:

Herito offers customization services for the Disc Brake Pad Set, model number ZK-10001, manufactured in China. Our product features a thickness of 0.5 inches and comes in a sleek black color, designed for easy installation. With excellent heat dissipation properties, these brake pads ensure optimal performance and safety. We provide OEM brake pads tailored to your specifications, making them some of the best ceramic brake pads available on the market. Additionally, we support customization compatible with your brake pad tool requirements to deliver the perfect fit and function for your vehicle.

Support and Services:

Our Disc Brake Pad Set is designed to deliver superior braking performance and durability for a wide range of vehicles. To ensure optimal functionality and safety, please follow the installation instructions carefully and use compatible components.

If you encounter any issues with your Disc Brake Pad Set, please verify that the pads are correctly installed and that the brake system is properly maintained. Regular inspection and cleaning of the brake components can help extend the life of the pads and improve overall brake performance.

For best results, break in your new brake pads by performing several gradual stops from moderate speeds to ensure proper bedding and optimal friction performance.

Our technical support team is available to assist with any questions regarding installation, maintenance, or product compatibility. Please refer to the product manual for detailed specifications and maintenance guidelines.

We recommend using only genuine replacement parts to maintain the integrity and safety of your braking system. Avoid using abrasive cleaners or materials on the brake pads to prevent damage.

In case of any defects or quality issues, please refer to our warranty policy for information on product replacement or repair.
