Basic Information

- Brand Name: Herito
- Model Number: ZK-10001

Product Specification

- Interchange Part Number: D1293 D1222
- Quantity: 4 Pieces Per Set
- Oem: MN102618
- Position: Front
- Type: Parking Brake
- Part Number: DBP-001
- Hardware Included: Yes
- Thickness: 12 Mm

Product Description:

The Disc Brake Pad Set is an essential component designed to provide superior stopping power and enhanced safety for your vehicle. Engineered with precision and built to the highest standards, this brake pad set is ideal for drivers seeking reliability, durability, and exceptional performance. Certified under ISO 9001 and SAE J661 standards, this product meets rigorous quality and safety benchmarks, ensuring peace of mind every time you hit the brakes.

One of the standout features of this Disc Brake Pad Set is its composition of high-quality ceramic brake pads. Ceramic brake pads are widely recognized as some of the best ceramic brake pads available in the market today. They offer a unique combination of quiet operation, reduced brake dust, and excellent heat dissipation, which contributes to longer pad life and consistent braking performance. Whether you are navigating busy city streets or cruising on the highway, these ceramic brake pads provide smooth and reliable stopping power with minimal noise and vibration.

Designed specifically as parking brake pads, this set is tailored to enhance the parking brake system's efficiency and reliability. The front position placement ensures optimal fitment and compatibility with a wide range of vehicle models, providing an easy and straightforward installation process. This product comes with all the necessary hardware included, so you won't need to purchase additional components, making the installation hassle-free and convenient for both professional mechanics and DIY enthusiasts.

The Disc Brake Pad Set also includes interchange part numbers D1293 and D1222, ensuring compatibility with various vehicle makes and models that utilize these part numbers. This interchangeability provides flexibility and confidence that you are purchasing a product that meets or exceeds OEM specifications. Whether you are replacing worn-out brake pads or upgrading your braking system, this set is an excellent choice for maintaining your vehicle's safety and performance.

When it comes to choosing the best ceramic brake pads, this Disc Brake Pad Set stands out due to its superior material technology and strict adherence to quality certifications. Ceramic brake pads are known for their ability to reduce brake fade, maintain stable friction under high temperatures, and produce less wear on the brake rotors compared to traditional metallic brake pads. This means improved braking efficiency and cost savings in the long run, as you will experience fewer replacements and less rotor maintenance.

In summary, the Disc Brake Pad Set is a top-tier parking brake solution that offers outstanding durability, quiet operation, and excellent stopping power through the use of premium ceramic brake pads. Certified to meet ISO 9001 and SAE J661 standards, equipped with all necessary hardware, and designed for front position installation, this set is an ideal choice for drivers who demand reliability and performance. Its compatibility with interchange part numbers D1293 and D1222 further adds to its versatility, making it a trusted option for maintaining and enhancing your vehicle's braking system.

Investing in these ceramic brake pads ensures you are choosing one of the best ceramic brake pads options on the market, delivering exceptional braking performance, longevity, and safety. Whether for daily commuting or more demanding driving conditions, this Disc Brake Pad Set will help you maintain control and confidence on the road, making it a smart and practical addition to your vehicle's maintenance routine.

Features:

- Product Name: Disc Brake Pad Set -----
- Placement: Front and Rear
- Braking System: GRL
- Quantity: 4 Pieces Per Set
- Part Number: DBP-001
- Thickness: 12 mm
- High-quality ceramic brake pad for superior performance
- Trusted as the best brake pad brand for durability and reliability
- Designed to provide excellent stopping power and reduced noise
- Ideal choice for both front and rear braking systems

Technical Parameters:

Number Of Pieces	4
Quantity	4 Pieces Per Set
Part Number	DBP-001
Noise Level	Low Noise Operation
Braking System	GRL
Color	Black / Grey
Product Placement	Front And Rear
Thickness	12 Mm
Position	Front
Hardware Included	Yes

Applications:

The Herito Disc Brake Pad Set, model number ZK-10001, is an excellent choice for various application occasions and scenarios, offering reliable performance and durability. Manufactured in China, this set features a sleek black and grey color scheme, adding a professional look to your vehicle's braking system. Weighing approximately 1.2 kg per set, these brake pads are designed for efficiency without adding unnecessary weight.

One of the standout features of the Herito Disc Brake Pad Set is its use as a parking brake, making it essential for vehicles that require dependable holding power when stationary. Whether you are parking on a steep incline or simply ensuring your vehicle remains secure when parked, these brake pads provide the confidence and safety you need. Their low noise operation ensures a quiet driving experience, minimizing the typical squealing or grinding sounds often associated with brake pads.

These pads are made from ceramic brake pad material, which is widely regarded as the best brake pad material due to its excellent heat resistance, longevity, and minimal dust production. Ceramic brake pads also tend to offer smoother braking performance and better modulation, making them suitable for a broad range of vehicles and driving conditions. Herito has built a reputation as the best brake pad brand by focusing on quality, durability, and customer satisfaction, making the ZK-10001 model a trusted choice among drivers.

The Herito Disc Brake Pad Set is suitable for everyday driving, urban commuting, and light to moderate off-road use, thanks to its robust ceramic composition and thoughtful design. It is compatible with interchange part numbers D1293 and D1222, ensuring easy replacement and compatibility with various vehicle models. Whether you are a professional mechanic, a car enthusiast, or a daily driver, these brake pads deliver consistent stopping power and reliability.

In summary, the Herito ZK-10001 Disc Brake Pad Set offers an ideal solution for parking brake applications, combining the benefits of the best brake pad material—ceramic—with low noise operation and a lightweight design. Its performance in diverse scenarios, from city streets to hilly terrains, makes it a smart investment for maintaining vehicle safety and brake system efficiency.

Customization:

Herito offers premium product customization services for the Disc Brake Pad Set, model number ZK-10001. Manufactured in China, these front-position brake pads feature a thickness of 12 mm and come in sleek black and grey colors. Our customized sets include all necessary hardware, ensuring a perfect fit and easy installation. Compatible with interchange part numbers D1293 and D1222, these OEM brake pads are designed to meet the highest industry standards. Choose Herito, the best brake pad brand, for reliable and high-performance OEM brake pads tailored to your specific needs.

Support and Services:

Our Disc Brake Pad Set is designed to provide exceptional stopping power and enhanced durability for a wide range of vehicles.

Manufactured using high-quality friction materials, these brake pads ensure reliable performance under various driving conditions.

For optimal results, it is recommended to inspect the brake system regularly and replace the brake pads as needed to maintain safety and efficiency. Proper installation by a qualified technician is essential to ensure the brake pads function correctly and do not cause premature wear to the rotor.

If you experience any issues such as unusual noises, vibrations, or decreased braking performance after installation, please refer to the vehicle's service manual for troubleshooting tips. Additionally, ensure that the brake pads are compatible with your specific vehicle model and that all components are installed according to the manufacturer's guidelines.

We stand behind the quality of our Disc Brake Pad Set and offer support to help you achieve the best performance. For maintenance advice, warranty information, and technical assistance, please consult the product documentation or visit our official support resources.
