Basic Information

- Brand Name: Herito
- Model Number: ZK-38001

Product Specification

- Noiselevel: Low Noise
- Slotted: Yes
- Hardware Included: Yes
- Heat Dissipation: Excellent Heat Dissipation
- Interchange Part Number: D1293 D1222
- Package Quantity: 1 Set
- Corrosion Resistance: Yes, Coated Backing Plate
- Heat Resistant: Yes

Product Description:

Introducing our premium Disc Brake Pad Set, designed to deliver exceptional braking performance, durability, and reliability for a wide range of vehicles. Engineered with precision and made from high-quality materials, these disc brake pads offer an excellent balance of stopping power and longevity, making them a top choice for drivers who prioritize safety and performance on the road. Whether you are replacing worn-out pads or upgrading your braking system, our product stands out as one of the best brake pad brands available in the market today.

One of the key features of this disc brake pad set is its composition of good ceramic brake pads. Ceramic brake pads are renowned for their superior heat dissipation, minimal dust generation, and consistent performance under various driving conditions. This ensures that your braking system remains effective and clean, reducing wear on the rotors and extending the lifespan of your entire braking setup. The ceramic formulation also contributes to the low noise level of these pads, providing a quiet and comfortable driving experience without the annoying squeals often associated with other types of brake pads.

Our disc brake pads come with a standard size that fits perfectly with a wide range of vehicle models, ensuring compatibility and ease of installation. The set is designed to meet the FMSI D1566 specification, which guarantees precise dimensions and quality standards that align with industry requirements. This means you can trust that the pads will fit seamlessly and function correctly with your vehicle's braking system, offering optimal performance every time you apply the brakes.

In addition to high-quality brake pads, this set includes all necessary hardware to facilitate a smooth and hassle-free installation process. The hardware included ensures that the pads are securely mounted and operate efficiently, reducing the risk of vibrations and uneven wear. This comprehensive package saves you time and effort, allowing you to complete the brake pad replacement with confidence and convenience.

Durability is another hallmark of this disc brake pad set. With a guarantee period ranging from 30,000 to 50,000 kilometers, these pads provide long-lasting performance that withstands the rigors of daily driving and various road conditions. This extended service life translates into fewer replacements and better value for your investment. You can rely on these pads to maintain their integrity and effectiveness even after extensive use, ensuring that your vehicle remains safe and responsive over time.

Choosing the right brake pads is crucial for maintaining your vehicle's safety and driving comfort, and this product offers a well-rounded solution that meets these demands. As one of the best brake pad brands, it combines advanced ceramic technology, precise manufacturing, and practical features to deliver a superior braking experience. Whether you are a professional mechanic, an automotive enthusiast, or a regular driver, this disc brake pad set provides peace of mind and dependable performance.

In summary, our disc brake pad set featuring good ceramic brake pads is an excellent investment for anyone seeking reliable, quiet, and efficient braking. With its low noise level, standard size, included hardware, and a robust guarantee period of 30,000 to 50,000 kilometers, it stands out as a highly recommended choice in the category of disc brake pads. Upgrade your vehicle's braking system today with this top-quality product and experience the difference that comes with using the best brake pad brand on the market.

Features:

- Product Name: Disc Brake Pad Set -----
- Includes Hardware: Yes, all necessary hardware included
- Corrosion Resistance: Yes, features a coated backing plate for enhanced durability
- Noise Level: Low noise operation for a quieter driving experience
- Number of Pads: 4 pads included
- Package Quantity: 1 complete set
- Made with the best ceramic brake pads material for superior performance
- Designed using the best brake pad material to ensure long-lasting wear and safety

Technical Parameters:

Wear Resistance -----	High Wear Resistance -----
Corrosion Resistance	Yes, Coated Backing Plate
FMSI	D1566
Heat Resistant	Yes
Package Quantity	1 Set
Brake Pad Type	Disc
Heat Dissipation	Excellent Heat Dissipation
Hardware Included	Yes
Slotted	Yes
Number Of Pads	4

Applications:

The Herito Disc Brake Pad Set, model number ZK-38001, is an exceptional product designed to deliver superior braking performance in a variety of occasions and scenarios. Manufactured in China, this brake pad set is engineered with high wear resistance and heat-resistant materials, ensuring long-lasting durability and reliable performance even under the most demanding conditions. Whether you are a

professional mechanic or a vehicle enthusiast, these brake pads provide the best brake pad material available on the market, making them an ideal choice for maintaining safety and efficiency.

This disc brake pad set is perfect for everyday driving, offering consistent stopping power and smooth braking on city roads, highways, and suburban streets. The high wear resistance feature ensures that the pads can withstand frequent use without premature deterioration, making them suitable for both commuter vehicles and high-performance cars. Additionally, the heat-resistant properties allow the pads to maintain optimal friction levels under intense braking situations, such as downhill driving or stop-and-go traffic, preventing fade and ensuring driver confidence.

For those involved in automotive repair and maintenance, the Herito ZK-38001 brake pads come with all necessary hardware included, simplifying the installation process. The inclusion of slotted pads helps in dissipating heat and reducing noise, vibration, and harshness during braking. This makes the brake pad set a valuable addition to any garage or workshop, where a reliable brake pad tool is essential for efficient and accurate replacement. The FMSI number D1566 ensures compatibility with a wide range of vehicles, offering versatility for various brake systems.

The Herito disc brake pads are also well-suited for more specialized applications such as performance driving, off-road adventures, and commercial vehicles that require dependable braking under heavy loads. Their excellent material composition makes them the best brake pad material choice for those seeking durability, safety, and enhanced braking control. Whether you are preparing your vehicle for a long road trip or routine brake maintenance, these pads ensure peace of mind and superior stopping power in every scenario.
